Statements That May Be Investigated.
Testimony of Norway Citizens.

When a Norway citizen comes to the front, telling his friends and neighbors of his experience, you can rely on his sincerity. The statements of people residing in far away places do not command your confidence. Home endorsement is the kind that backs Doan's Kidney Pills. Such testimony is convincing. Investigation proves it true. Below is a statement of a Norway resident. No stronger proof of merit can be had.

"The public statement I gave praising Doan's Kidney Pills several years ago was right in every particular," says S. O. Foster, barber, of Main St., Norway. "I used this remedy, getting it from Stone's Drug Store and I am glad to say that it is the best one on the market. Sometimes when I catch cold, it settles on my kidneys, but a few doses of Doan's Kidney Pills give me relief."

Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Foster had. Foster-Milburn Co., Props., Buffalo, N. Y. 34-35

NORWAY DAYS.

BY ALMA PENDLETER HAYDEN.
(Inserted by my pupils of Norway High School.)

The hills of Norway cluster round. Over leafy ways her skies are clear. We view the soft and sunny land. But where are they of the yester-year?

The boys and girls we used to know, So few are left to greet us here. And in our hearts sounds this refrain, "O, where are they of the yester-year?"

I pity him who has no bright and joyous picture Of his youth to gladden sterner days. No background of a happier clime of flowers and sunshine That will cheer him climbing steeper ways.

Then he must always seek in vain the fabled fountain, Who has missed in youth the bubbling spring. And again through life can satisfy his need and longing. For the memory of that dearest thing. But you will pass your school days in this verdant valley.

With a most happy fate forecast your lot; Within the pale of close associations placed you. Gave to you this nature favored spot.

All the joys, the pranks and fun, Which mingled with our work in Norway Which days have brightened.

All our years since sterner tasks begun. And now, while grateful for the discipline and knowledge That we gained, we're thankful that no strain Of strenuous efforts or unceasing application Ever left any scars on our brain.

With gladness would we then have left all Gaul unconquered. With what joy we've up "Zenae's" train. But nay, we all must share his journey to a fair Carthage.

On the shore where Didro led in vain. The methods used by Greeks to gain the Trojan city. For they had often brought to use in Virgil's ditty. A beloved horse to help them pass!

The rasp of German gutturals gave us many a struggle. And we tried the twists of paroxysms. With Milton took a peep at Pandemonium. And the depths of Dante waded through. But since we've found the world a more exacting teacher.

With its depths more real, its friends less true. And sometimes in the fields of Life, among its roses. Have we plucked the rosemary and rue!

We know the past before the days of our endeavor. When the bugle called and war notes rang. When Norway boys (no braver in the land) All responded.

And the air was rife with songs they sang. Imprisonment and hardship, pain in silence suffered. All their record grand is kept on high. And deep within the hearts of those they loved. Is written.

In the characters which never die. All this we know, and proud we are of knight and soldier. Proud of the poet, judge, divine and sage. Proud of our Alma Mater and her traditions. All which make our valued heritage!

In fancy we wander up the hill. Again live in youth's atmosphere. Enter the room we well know of yore. But where are they of the yester-year?

Hark to the roll call of each name. In the class room we hear "Here." But in our hearts the low refrain, "Where are they of the yester-year?"

The horse and last, we see no more. Still in our thoughts are ever dear. We pledge our love and loyalty To memories of the yester-year!

Catarh Cannot Be Cured

with LOCAL APPLICATIONS, as they cannot reach the seat of the disease. Catarrh is a blood or constitutional disease, and in order to cure you must take internal remedies. Hall's Catarrh Cure is taken internally and acts directly upon the mucous membrane, curing the disease. Catarrh Cure is not a quick medicine. It was prescribed by one of the best physicians in the world, and is composed of the best tonic known, combined with the best blood purifier, acting directly on the mucous surfaces. The perfect combination of these two ingredients is what produces such wonderful results in curing catarh. Send for testimonials, free.

F. J. CHENEY CO., Chicago, Toledo, O. Sold by Druggists, price 75c. Take Hall's Family Pills for constipation.

Children's Column.

Dear Editor and Girls and Boys:—

Why don't the children write for the paper? I will write about my chickens burrowing in the dirt. They look very cunning when they are burrowing in the sand. There are seventeen chickens. Some of them are red and white and brown. I have ten pet chickens. I have one that can dress and I wheel it around in my carriage. She is white and brown and her name is Pet.

I will send some verses. Trough my window I can see A lovely flower in bloom, It smiles so sweetly as can be. Sending comfort in my room. All along my path of life God sends me help and cheer So as to shun sin and strife And trust and never fear.

THE MISSING ONE.

"If I should roam from shore to shore And search this wide world o'er and o'er, And view each face I daily meet, One form beloved I could not greet. Though kind and loving all might be. Among the thousands I could see That one familiar smiling face. Time from my mind could never efface. That gentle loving soothing voice. That ever made my heart rejoice, Or never more can welcome me. Amid the throngs on earth I see. Then I must wait till God sends come, To greet her in a heavenly home. There we shall meet, soon meet again And find no sorrow, death or pain. The loved of earth will there be gathered. Never more by death be severed. But in bliss forever reign. To be parted ne'er again."

BLANCH C. KIMBALL.

SOUTH HARRISON.

The farmers are cutting their oats for fodder. Rufus Reed is at home, doing his hay-making. Hazel Dyer and family of Portland are stopping at John Hartford's. Mrs. Abbie Pendexter is not so well and is confined to her bed. Rufus Reed sold some grass to Lew. Bachelier of Naples. Mrs. Ethel Watson of Naples has been staying a few days with her mother, Mrs. Abbie Pendexter. Albion Pendexter and family of Bridgton were at Sim. Pendexter's, Sunday, Aug. 9th, also Mrs. Gertrude Johnson of Bridgton. Norman Thompson and Everett Fogg and Ethel Fogg spent last week at the Beach. Mrs. Fred Russell and children of Windham recently visited at her father's, Herman Thompson's. Maurice Russell is stopping at his grandfather's, Herman Thompson's. Charles Sands and wife of Washington, D. C., have been visiting her sister, Mrs. Melvin Merrow, and other relatives. Mr. Merrow and wife carried them to Edes Falls in their auto.

Use "Gets-It," Corns Shrivels, Vanish!

It's the New Way, and You'll Forget You Ever Had Corns.

"2 drops put on in 2 seconds, corn shrivels, comes clean off!" That's the marvelous story of "GETS-IT," the new-plan corn cure. Nothing can be simpler for the cure of corns—and it

No Corns to Bump. No Pain. If You Use "GETS-IT."

never fails. That's why millions of people are using "GETS-IT" today and throwing away their ratty plasters, sticky tape, toe-eating salves, and "wrapping outfits" that make a bundle around the toe and choke it into pain by pressing either on or around the corn. There is nothing to stick to your stocking, nothing to cause inflammation or rawness, nothing to press on or around the corn. You apply it in 2 seconds. No more knives, razors, scissors or files. No blood-poison dangers. Try "GETS-IT" for that corn, callus, wart or bunion.

"GETS-IT" is sold by druggists everywhere, or a bottle, or sent direct by E. Lawrence & Co., Chicago.

HIRAM.

Centennial Anniversary.

Hiram was celebrated Wednesday, Aug. 12th. It is estimated there were between 6000 and 7000 present, people coming from all parts of the county and many from other states.

The morning program included a mixed parade with various floats and decorated carriages. C. Kimball was chief marshal and the aids were S. N. Short, Albion N. Douglas, Clarence Ward, Mrs. Helen Cornick, Grace L. Noble, Emma Milliken and Beatrice Rankin. The floats included many interesting features, representing the orders and societies and businesses. The prizes for the parade were as follows: Hiram Grange, first; The Reading Club, second; Methodist Church, third.

C. F. Clemens was awarded first and second on cattle. Prizes for horseman-ship, Marshall Kimball won first and Miss Cornick, representing an Indian maiden in costume, won first for girls. Among those who had decorated automobiles in the parade were Will Crosby, Lucian Rankin, Grace Dyke, Charles Hunt, Henry Furbush, and Frank M. Brown. Twitchell & Champlin Co. of Portland and Hiram Cooperative canning Company had decorated automobiles. Others made special preparations in the way of decoration, but each car had bunting and flags and bouquets to brighten up with colors the plain finish of the machines.

The judges of the first parade were Prof. A. W. Smith of Baldwin, Dr. Charles Mabry of North Vassalboro and George B. Gray of Westbrook, while the judges for the automobile parade were Charles E. Cobb of Denmark, E. S. Douglass of Sebago and Leroy Rand of Westbrook.

The speaking part of the exercises took place at 12 o'clock and was opened by prayer by the Rev. Mr. Pike and was followed by an address by Rev. Mr. Hoyt. The exercises were held in the square east of the East Hiram village. The principal address of the day was delivered by Hon. S. W. Gould of Skowhegan, a former resident of Hiram.

BETHEL.

Sylvia Swan spent last week with friends in Lewiston, Augusta and Mechanic Falls.

Mr. and Mrs. M. W. Davis of Roxbury, Mass., are guests of Judge and Mrs. A. E. Herrick.

Mrs. Green and daughter, Marjorie of Boston are the guests of Harry Green and family.

Mrs. H. S. Pushard and son, King, are spending a few weeks with Mrs. Pushard's parents at Mechanic Falls.

Rev. Arthur Shirley of Stratford, Conn., preached at the Congregational church, August 16th.

Mr. and Mrs. William Bessey and children of Iowa have been recent guests of Mrs. Bessey's aunt, Mrs. W. B. Kimball.

Mr. and Mrs. Herbert Bunce of Maplewood, Mass., are the guests of Lucy Fox for a few weeks.

Alice Mason is spending a few weeks with Luella Boothby at Medford, Mass.

Rev. and Mrs. Arthur Shirley of Stratford, Conn., are guests of Mrs. E. T. Russell.

J. Harold Neill has finished clerking at the Beals Inn and is helping his brother, C. C. Neill in the fruit business.

Hon. Halbert P. Gardner, progressive nominee for Governor, spoke at Odian hall, Saturday evening, Wednesday evening, the Rev. H. E. Dunack of Augusta and Hon. Alton C. Wheeler will speak.

CONSTIPATION CAUSES SICKNESS

Don't permit yourself to become constipated, as your system immediately begins to absorb poisons from the back-logged waste matter. Use Dr. King's New Life Pills and keep well. There is no better safeguard against illness. Just take one dose to-night. 25c at your Druggist. 32-35

Bucklen's Arnica Salve for Skin Eruptions.

SOUTH WOODSTOCK.

Maggie Mackintosh of Lewiston has been the guest of Mrs. John Curtis.

Mrs. E. B. Davis was given a birthday postcard shower. She received one hundred and seven cards.

Mr. and Mrs. John Curtis and Rupert, Mrs. Ethel Wood and Beryl and Virgil are picking berries for F. L. Wyman.

Fred Thurlow cut the hay on Eddie Woods place.

F. L. Wyman is having a big yield of raspberries. He harvested over 15 bushels one day recently.

Mrs. G. W. Davis and sons, Gaydon and Guyson, spent Monday, the 10th, with her parents, Mr. and Mrs. G. N. Peck.

Mr. and Mrs. Roy Thins spent Sunday, Aug. 9th, at A. M. Andrews's.

One pound cartons for butter for sale at the Advertiser Office, Norway. Sample sent on application. Enclose 2-cent stamp. 271t

Mary L. Huston, Hiram, to George K. Huston, Winchester, Mass.; certain land with the buildings thereon situated in Hiram, containing 97 acres, more or less.

NORTH PARIS.

Eva Richardson of South Paris spent the week-end with her friend, Nina Bradford.

Loris and Etta Hollis are enjoying a two weeks' visit with relatives in Sumner.

Chas. Jacobs and son of Bryants Pond, visited at E. C. Mason's, Sunday.

The friends of Alfred Andrews gave him a birthday party surprise party the evening of August 13. A very pleasant evening was enjoyed with music, games, confectionery, cake and lemonade were served.

The families of Arthur Stevens and Clayton Churchill are having a very hard time with whooping cough.

WATERFORD.

Harriett E. Douglass.

Harriett E. Douglass was born in Waterford in 1826, being the eldest in a family of ten children born to Rev. John A. and Lucy Abbott Douglass.

Through educational facilities for women were limited in the early days, she gained a good intellectual training and conducted many sessions of private school in this and adjoining towns.

She was for some years lady principal of Gorham Seminary. Afterwards she enlarged and remodelled the family home and maintained for a number of years a seminary for young ladies.

Falling health compelled her to give up the work of teaching some 15 years ago and since that time she and her brother William have resided here until last autumn, when she went to Hollowell to spend the winter.

This spring she went to Southport to spend the summer and while there she experienced a shock of paralysis and passed away Tuesday, July 28. The remains were brought here and services held at the old home, Friday, July 31. Rev. G. W. East of the church offered prayer and Principal Henry Warren of the Albany (N. Y.) Academy for boys, a lifelong friend of the family, spoke words of appreciation.

She leaves two brothers, John A. M. D., of Amesbury, Mass., William M. D., of Waterford and one sister, Mrs. Clara E. Evelette of Hollowell.

Circle supper and entertainment will be held in Masonic hall, Friday evening of this week.

It is reported that Dr. A. J. Stimpson will move to North Waterford in the near future.

Harold Pike is taking Harry Luke's place as milk tester for the Association this month.

Mr. and Mrs. Hill, who have bought the Freeman Stanley place on Hemlock Hill a year ago sold their farm machinery and stock at auction last Saturday.

In spite of the heavy downpour Friday evening, about 75 turned out to witness the drama presented by the East Waterford company.

Arthur Fittz and family of Quincy, Mass., are visiting Mrs. Fittz' brother, George Rice.

James Holden and family of Brockton, Mass., are visiting Mrs. Holden's parents, Mr. and Mrs. S. H. Abbott.

Mrs. Kimball and son, Roy of Boston, are visiting her brother and sister, George and Gertrude Kimball.

Will Morgan of Greenwood is spending a few days with his brother, Frank.

About 75 enjoyed the Sunday school picnic in Chadbourne's Grove, Wednesday. The place, the day and dinner were ideal.

Old Fashioned Beans.

Some years ago the Maine Agricultural Experimenting Station undertook some breeding work with beans. The immediate problem for which the work was undertaken was to procure true-breeding strains of Old-Fashioned Yellow Beans. A great deal of difficulty has been experienced by bean growers in securing strains which would come even reasonably true to seed.

In spite of careful seed selection for many years strains of these beans often continue to throw some of the blue or black seeds. This is due to the fact that the solid yellow, mottled or white beans every year. Nearly all of the large growers complain that in order to secure a good price for their crop it is necessary to hand-pick their beans every year.

At present our work was directed it was believed that it would be relatively simple matter to secure pure-breeding strains but our experience has shown that this is not the case. At the time we began our work with beans it was believed that the bean flower was normally self fertilizing; that is the pistil or female portion of the flower was fertilized by pollen from the same flower. It was believed that this fertilization took place before the blossom opened. Two years ago it was found that this is not always the case but that cross-pollination could be brought about by bumble-bees.

If one watches a large bumble-bee working in a bean field it will be seen that when he lights on the lower petals of the flower he inserts his head into the flower and touches his body. This pistil is covered with pollen from its own flower and some if this is rubbed onto the bee's body. When he visits the next flower the operation is repeated and some of the pollen from the first flower may be left on the pistil of the second.

Where more than one kind of beans are grown in the same or adjoining fields they are almost certain to be mixed. The mixing is all done by the large bumble-bees since the honey bees are too small to tip the petals and force out the pistil.

For this reason it has been necessary to carry on the bean breeding under other conditions. Last year there was built at Highmoor a bean cage 25 x 50 feet which was enclosed on both the roof and the sides with wire. This effectually excludes all insects which might cross-pollinate the bean flowers.

Last year a number of strains of Old Fashioned Yellow Eye beans were grown under this cage. A few of these appeared to be breeding true. These strains are being tested further this year. If they prove to be true to type they will be multiplied in isolated plots next year so that there will be no danger of crossing. In order to maintain such a strain pure it will be necessary for the grower to plant only one kind of beans or at least to have the different kinds so separated that there will be no danger of crossing by the bumble-bee.

In addition to the work of developing pure strains of Old Fashioned Yellow Eyes the Station is also attempting to produce new and desirable types of beans by means of controlled hybridization. This work is not sufficiently advanced to give any evidence of what results are to be expected.

Dehorning Cattle.

The incipient horns of young cattle should be subjected to a chemical process which will prevent them from growing. Prevention is better than after-treatment. And the extinction of the horn should be done before the calf is three months old. Some advise that it should be done before it is a fortnight old. The hair must be cut from the top of the coming horn, and a stick of caustic potash, moistened with water, applied to it. Several applications may be needed at short intervals, and they must be carefully done, as the caustic is poisonous, and would be injurious to the flesh or eyes if it were allowed to touch them. The calf must be especially sheltered and cared for while the process of dehorning is taking place, but if it is done, no ill effects are likely to be incurred. Hornless cattle may one day be general, and it may be possible to produce breeds entirely without them.

Cheese Making.

Few people realize the great profit and possibilities in making cheese on the farm, especially when surplus milk is on hand.

The demand for soft and fancy cheese is growing all the time and these can be made on the farm as easily as in the factory, and not only as a means of using up surplus milk, but also by turning the supply into cheese, cheese making can be made as profitable as any line of dairying.

The most common cheeses made on the farm are: cheddar, cottage, neufchatel, pimento and cream. In the manufacture of cheese, the use of clean milk is an absolute necessity, if a good product is to be made. The milk to be used is placed in a tank or vat and 1/4 to 1 per cent. is added, until the milk has an acidity of 18-20 per cent. The rennet is then added at a rate of 2 1/2-3 1/2 oz. to 1000 pounds of milk, or enough rennet to coagulate the milk in 10 to 15 minutes.

The best temperature for rennet action is 86 degrees Fahrenheit and the rennet should be diluted in from 80 to 40 times its volume of water, and spread evenly through the mass of milk and stirred for three to five minutes. When the curd is firmly coagulated, which will usually be from 25 to 40 minutes after adding the rennet, the curd is ready to cut. This is done by means of horizontal and perpendicular cheese knives, which cut the curds into small 3-8 cubes.

The cubes should then be gently stirred to prevent their matting together, while the whey is draining off. The temperature of whey is raised to 88 degrees Fahrenheit according to conditions, very slowly, so that one-half hour to one hour is required to heat it up. Then the whey should be drawn off and the curd stirred to drive off all the whey. The whey is then piled in piles about six to eight inches deep, along the sides of the vat and when firmly matted together, it is cut into blocks about six inches long and piled up.

It is turned over every 15 minutes, until it is meaty in texture or the whey running off is very acid, when it is ready for milking. This consists in running it through a machine which cuts it into small cubes. It is then ready for salting, which is applied at the rate of one ounce of salt to three or five pounds of curd. The curd is then piled in the cheese hoops and pressed for one hour, when they are turned over and left for 24 to 48 hours. They are then taken out and placed in a curing room where they are turned once each day for the first month. After three or four days, the cheeses are usually dipped in a hot solution of paraffine so they are covered with a thin, even coat of it. They are ready for market in from one to six months, depending on the cheese.

The "stirred-curd" method is a modification of this method and consists in stirring the curd while the whey is draining off, instead of allowing it to pile up and mat and be milled.

The "soaked-curd" method consists in soaking the curd before it is put in the curing room. This causes more water to be left in the cheese but is unable to cause a poor body and texture.

Neufchatel cheese is made of sweet, whole milk, placed in a shotgun can and sealed at a temperature of about 72 degrees. A sufficient amount of rennet is added to cause coagulation in the desired time and enough starter to produce an acidity of about 3 per cent. when the cheese is ready to drain.

When the curd is coagulated, and the whey has begun to separate out, the cheese is placed on a draining rack or put in a cheesecloth bag, care being taken to break the curd as little as possible. Slight pressure may be used to hurry the separation of the whey from the curd. Usually about 12 hours is required to remove all whey, if no pressure is used. When dry enough it is ready to salt. The salt is sifted over the entire mass and the cheese is then worked or kneaded to thoroughly mix the salt through it. The salting is usually at the rate of one ounce to five pounds of cheese.

Pimento cheese is neufchatel cheese to which has been added some finely ground pimentos, usually at the rate of one pound of pimentos to 10 pounds of cheese. They are mixed together thoroughly, usually by running through a meat grinder. Cream cheese may be made by two methods—either use milk testing 10-12 per cent. butter fat and follow the neufchatel method, or simply add heavy cream to neufchatel cheese just before salting.

Cottage cheese is made from skim milk. The method of manufacture is similar to that of making neufchatel, except that the curd is cut into small cubes with a cheese knife and is heated up to 88 degrees to 102 degrees Fahrenheit before the whey is drawn off. The cheese when finished is drier than neufchatel.

Buttermilk, or a mixture of skim milk and buttermilk may be used in the same way, to make buttermilk cheese. They can all be made without the use of a starter, but its use is almost necessary to insure a good uniform product from day to day.

When ready for market, all the soft cheeses are printed in one-fourth pound packages, either cylindrical or oblong (except cottage cheese which) is usually sold in pound packages and wrapped in parchment paper or tin-foil.

With a good, high-grade article, uniform from day to day, the maker can always sell for a price which will leave him a good margin of profit.

Prof. O. A. Jameson,
University of Maine.

DICKVALE

Grafton Gordon and family got a bushel of blueberries one day last week. Orrington Pingree's boy is working in the woods for Will Hopkins.

Hazel McIntire is working for her mother, Mrs. Lineas Libby, for a few weeks.

Herbert Burgess is helping his nephew, Oscar Putnam.

Walter Ballentine is stopping at Roscoe Tracy's, helping him on his hay.

Mrs. Lennie Farrar is visiting at Mrs. Eastman's at West Peru for a few days.

Mrs. Lona Knox is working at Lineas Libby's taking care of the baby.

Mrs. Elmer Flagg is visiting her mother, Mrs. Esther Gordon.

Elder Osman is holding meetings in this vicinity. Mrs. Osman came with him.

Mrs. Lottia Hammond has been cleaning the school house.

Lineas Libby sold a nice big hog recently that weighed about 400 pounds.

Butter is selling for 36 cents at present and eggs for 28 cents.

Blueberries are plenty on Speckled Mountain and lots of people went there the 15th.

Oscar Putnam has a span of work horses for a few days on trial. Oscar says they are O. K. He is talking of buying them.

A MISTAKEN IDEA

There are some people who still resort to drugged pills or alcoholic syrups to overcome colds, nervousness or general debility, and who know that the pure, unadulterated nourishment in Scott's Emulsion is eminently better, but refrain from taking it because they fear it may lead to excessive fat or obesity.

This is a mistaken idea, because Scott's Emulsion first strengthens the body before making flesh. Its blood-forming properties aid nature to throw off sickness by building health from its very source, and flesh is formed only by its continued use. Avoid alcoholic substitutes for SCOTT'S.

WEST STONEHAM.

Mrs. Eva Richards and little daughter, Nellie of East Stoneham, visited her mother, Mrs. Maud McAllister a few days last week.

The whole community was shocked to learn of the sudden death of Dr. C. M. Coolidge of North Waterford. His loss will be deeply felt.

Mr. and Mrs. M. Allen are rejoicing over the birth of a daughter born Saturday. Mrs. Ida McAllister of North Lovell is caring for mother and child.

Lyman Chute made a business trip to Phillips last week.

Mrs. J. C. Sawyer and grandson, Carroll McAllister have visited relatives in Lovell a few days.

Blueberries are plentiful back on the mountains and large and ripe.

Mrs. H. B. McKen has three boarders from Massachusetts.

WEST PARIS.

Mr. and Mrs. Harry Mann and daughter, Percis, spent Sunday at Shagg Pond.

There was a very good attendance at I. O. O. F. dance Saturday night and there is to be another next Saturday night.

Bertha Perry is taking music lessons of Mrs. Burnham.

A number from here went to Mud Pond Sunday for Pond lilies.

Mr. and Mrs. Horace Dinsmore of Norway were guests at the Maple House Sunday. Oliver Dinsmore returned with them for a visit.

Dexter Gray, Mr. and Mrs. Ora Marston and Elizabeth Perry took an auto trip to Berlin.

Mr. and Mrs. Walter Starbird and daughter, Gelema were guests at the Maple House Sunday.

Chas. Martin has finished work for Paris Manufacturing Co., and is clerking for Lester Penley.

Mrs. Olive Shaw is visiting on Pine Hill with her niece.

Clara Hall has finished work at Leonard Swan's and is at Mrs. Johnson's.

A Word About Roads.

In each place in Maine where the roads are being reconstructed, the Maine Automobile Association has laid out entirely new routes covering the same territory, and erected signs, not only at the starting points but at all intersections.

By following these routes, practically all construction work is avoided. As a whole, these routes are as good as those formerly used. Moreover, the Association has issued a neat pamphlet giving complete routing directions, showing all turns, indicating the mileage and stating where connections are made with the older routes. These can be obtained free of charge from nearly all the leading hotels and garages in New England or will be sent upon request by the Information Bureau of the Association at Portland, Bangor and Houlton.

Two mammoth signs 8x18 feet have been erected, one on the Boston road just outside of Portland, and the other on the Lewiston-Auburn road just west of Auburn, advising the traveling public to obtain these details.

During the past two years there have been wonderful improvements in the roads in Maine, due, in great measure, to the active and intelligent work of the Maine Automobile Association. The State has taken hold of the proposition in a businesslike manner and the different cities and towns have made a great improvement in their methods. The 55 miles of road between Portsmouth, and Portland, which formerly was in a wretched condition, has been almost entirely rebuilt (tar-macadam, cement and gravel, and in excellent shape, some of it being as smooth as a house floor. By these routes touring in Maine is made easy.

Spanish Swindle.

The Post office department sends out the following information about a swindling scheme which is being practiced in this country.

The scheme consists in sending letters to certain persons, who have previously been selected by confederates. The foundation of the plot varies somewhat. In some instances the writer represents himself as a dying prisoner in a military fortress. He has a fortune on deposit in the United States, but the certificates of stock are concealed in a secret receptacle of his valise, which has been seized by Spanish court, and will be held until the prisoner or his representative has satisfied the cost of his trial. He claims distant relationship with the addressee. If the first letter bears out fruit it is followed by others in which the prisoner's daughter bears an important part. She is in Spain without a protector. A proposal is made to send her, accompanied by a priest, to the newly found relative for protection, if enough money is sent to release the valise containing the secret receptacle and the certificate of deposit.

SUMMER TRIPS ON THE SALT WATER

Splendid Steamships and
First-Class Service

Why Not Make Your Summer Travel
a part of Your Vacation Outing?

The Eastern Steamship Corporation operates 15 lines of steamers, connecting the principal summer resorts of the Maine Coast, and linking the Maine Seaboard with Boston, New York and the Maritime Provinces.

Fast and Luxurious Steel Steamships Now in Service.

PORTLAND-NEW YORK—Steel steamships North Land and Old Colony.

ST. JOHN—BASTROP—LUBEC—PORTLAND—BOSTON—Steel steamships Governor Cobb (turbine), Governor Dingley, Calvin Austin on the "Direct" and "Coastwise" routes between St. John and Boston.

BOSTON-NEW YORK—Steel steamships Massachusetts and Bunker Hill.

BANGOR-BOSTON—Turbine steel steamships Camden and Belfast.

ALL EQUIPPED WITH WIRELESS TELEGRAPH

Also connecting steamers in daily service for cruises among the islands along the coast

Summer tourists returning home will enjoy the splendid little sea voyage of the Maine Steamship Line from Portland to New York City direct—or the coastwise trip to Boston, connecting with the steamships of the Metropolitan S. S. Line direct from Boston to New York. Full information at local ticket office.

Maine Steamship Line to New York

Steamships Old Colony and North Land leave Franklin Wharf, Portland, Tuesdays, Thursdays and Saturdays at 6.30 P. M. for New York. RETURNING: Leave New York Tuesdays, Thursdays and Saturdays at 5.00 P. M. Single fare, \$8.00. Round trip, \$10.00. Monday day trips, leaving Portland at 10.30 A. M.

BOSTON AND PORTLAND LINE

Steamships Bay State and Ransom B. Fuller leave Franklin Wharf, Portland, week days at 7 P. M. Sundays at 9.00 P. M. RETURNING: Leave Boston at 7.00 P. M. week days and Sundays. Fare between Portland and Boston, \$1.50; staterooms, \$1.00, \$1.50.

INTERNATIONAL LINE

Three-Trip Schedule. Steamships Calvin Austin and Gov. Dingley leave Portland Mondays, Wednesdays and Fridays at 5.00 P. M. for Eastport, Lubec and St. John, N. B. RETURNING: Leave Portland for Boston Tuesdays, Thursdays and Saturdays at 8.00 A. M.

PORTLAND AND ROCKLAND LINE

Steamer Monhegan leaves Portland Tuesdays, Thursdays and Saturdays at 7.00 A. M. for Boothby Harbor, New Harbor, Round Pond, Friendship, Port Clyde, Tenants Harbor and Rockland. RETURNING: Leaves Rockland Mondays, Wednesdays and Fridays at 5.15 A. M., touching at the above landings. Due in Portland at 2.00 P. M.

PORTLAND AND BOOTHBAY LINE

Steamer Mineola leaves Portland Mondays, Wednesdays and Fridays at 8.00 A. M. for East Boothbay and intermediate landings. RETURNING: Leaves East Boothbay at 7.00 A. M. Tuesdays, Thursdays and Saturdays.

Forest Preservation.

Realizing the danger which faces the

forests and highway trees of Maine, a

petition has been presented to the State

Highway Commissioner asking their

cooperation in the preservation of forest

growth wherever possible in locating

roads. The time for action is now. Por-

table sawmills are devastating our state.

If we are to save our native trees, retain

the beauty of our picturesque highways,

we must do it now, and do it through the

organized public bodies which have this

matter in charge. Only a few of the

more prominent men and women of the

state were asked to sign the petition,

but it met with a reception of sufficient

warmth to plainly indicate the live in-

terest Maine's people are taking in the

denuding of her hills. Let this indiscri-

minating cutting and slashing go on for

a quarter of a century and the name

Pine Tree State will be a misnomer, so

far as the southern part of the state is

concerned.

SUMMER COUGHS ARE DANGEROUS

Summer colds are dangerous. They

indicate low vitality and often lead to

serious Throat and Lung Troubles, in-

cluding Consumption. Dr. King's New

Discovery will relieve the cough or cold

promptly and prevent complications. It

is soothing and antiseptic and makes you

feel better at once. To delay is dangerous.

Get a bottle of Dr. King's New Dis-

covery at once. Money back if not satis-

fied. 50c and \$1.00 bottles at your Drug-

gist.

Bucklen's Arnica Salve for Piles

A Serious Condition.

A serious problem in Lancaster

academy is found this year in the gradu-

ation of a class of 32 and only one mem-

ber able to find work this summer aside

from the work in the summer hotels,

which at best, at this season of the year,

is uncertain, owing to the large number

of applicants. One young lady has se-

cured work in a local office, but the

chances are that the others will have to

go out of town to find something to do

—Lancaster Democrat.

The above brings to mind the oft

repeated question, "Are our high

schools educating our boys and girls

away from work, and consequently away

from home?" The high school ought

to fit the pupil for living. And living

does not consist of getting along without

work, or holding a soft job, or drawing a

big salary, but in its true sense it consists

of getting real enjoyment out of every

day's duties. The introduction of man-

ual training and domestic science will

help solve the difficulty in places like

Lancaster. When we educate our chil-

dren to understand that labor with the

hands is honorable, and in many instan-

ces more so, than money acquired by

their wits we shall have solved the

problem.

WEST PERU.

Clean as a New England Kitchen.

Col. Chas. R. Bond of the Eastern Grain Company of Bangor, Maine, recently visited the high mills where William Tell Flour is made. The Colonel is a dyed-in-the-wool Yankee and he naturally feels that Boston is the hub of the universe in cleanliness as well as in learning.

But the great Ansted & Burke mills at Springfield, Ohio, startled him out of his New England conservativeness. He found that flour could be ground, boiled and packed in shipments without being touched with human hands at any stage. The sacks are even sewed by automatic machinery after being filled, and the barrel heads are put in by wonderfully ingenious machinery.

The barrels are made the same day they are filled, thereby avoiding any possible accumulation of dust in the barrels. After being made they are transported from the coopers to the flour mills by an indoor gravity system which protects the barrels from the weather.

But the thing that pleased the Colonel most of all was the sanitary way in which the barrels were made. In most cooper shops the grooves are cut and the heads put in by hand. This has to be done in a very war room while the barrels are hot, so that they will retain their shape. As a result the perishing coopers soil the inside of each barrel with perspiration.

In the William Tell cooper shop, however, these grooves are cut and the barrels headed by machinery. They are not touched by the men at all, and the insides of the new barrels are as clean as the rip-saw leaves the staves. Colonel Bond remarked that the whole institution was as "clean as a New England Kitchen." When William Tell Flour goes into the barrel it is going into a scrupulously clean new package.

OXFORD.

Mr. and Mrs. Augustus Smith spent Wednesday at Lake Auburn. Mr. and Mrs. A. J. Holden went to Gray to attend the reunion of the 25th Maine Regiment, of which Mr. Holden is a member. They will visit friends in Portland before returning.

Chas. Turner and daughter have been visiting Mr. Turner's brother, George Turner.

Sam Ellsworth has moved into Mrs. Chadbourne's store on Elm street. Joseph Leboke has been home from his work in the store on account of illness.

George Sciders and wife of Portland are spending their vacation with her mother, Mrs. Hattie Farnham.

The wooden mill is closed for repairs. Walter Wood and wife, went to Salem, Mass., recently, to visit Mrs. Wood's sister.

Mildred Bean and Consuela Wood have been visiting Mrs. Fred Stone in Massachusetts.

John Baxter, who has been visiting relatives in town, returned home, Monday, the 10th. His son, who was with him, will remain here for the present.

Mrs. Lilla Wood is visiting her daughter, Hortense.

Mrs. Walter Bean and daughter spent last week, Monday, at Old Orchard.

Mr. Jones and wife, Mr. Bowser and wife attended the Campmeeting, Sunday, the 9th.

Mr. Holden and wife, Mr. Farr and wife, Hattie Andrews and Marjorie Le-

broke spent part of last week at Poland Campground.

T. A. Roberts Post and Corps have an invitation to a Campfire at Waterford, Sept. 2d.

SOUTH CASCO.

Addie Stone, Leads Junction, was the guest of her friend, Miss Angie Dingley, at the F. A. Dingley home, during the week-end.

Mrs. Eliza Proctor, who has been absent several weeks on a visit to relatives and friends at Sebago Lake Station and in Windham, has returned to her home at Cooks Mills, making the return trip with her son-in-law, Herman Cook, by automobile.

James Stewart Summers, one of the physical directors of the West Side branch, Y. M. C. A., New York, and Mrs. Summers are in camp on one of the Dingley Islands, Sebago Lake.

Albert Lombard, Grand Rapids, Michigan, who has been with his brother, Fred Lombard, for a few days left Tuesday for Portland, en route for Cumberland Foreside, where he will join his youngest daughter, Fern Lombard and will spend the remainder of the week as the guest of his brother, Frank Lombard and family, Cambridge, Mass., at their summer home.

The Longfellow House.

The Longfellow birthplace on the corner of Fore and Hancock streets, Portland, will become the property of the International Longfellow society.

Arrangements have been made to buy the place for \$11,000. The house was purchased in 1911 by Louis Waxman from the heirs of Captain John W. Musgrave in whose family it was for 60 years. The house was built in 1800 by William Campbell, a truckman, the son of a scotchman who lived in Windham, and it was sold to Captain Stephenson in 1840. It was while Longfellow's parents were visiting Mrs. Stephenson, whose husband was in the West Indies, that the poet was born in the room on the second floor in the front of the house. The building originally stood directly on the shore but that part of the city has been built out into the harbor since then.

Drowned While Fishing.

William H. Diehl of Boston, while fishing Friday on Hancock pond with a companion, got his line tangled and standing up in the boat it over turned, the car striking Mr. Diehl in the stomach. Both men clung to the overturned boat for a time. Then Mr. Diehl thinking he had recovered his wind made a try for the shore about 300 feet away. He was an expert swimmer, but he had gone only about 40 feet when he sank. His companion could not swim a stroke, but help soon arrived and took Mr. Diehl from the water. A nurse from a nearby camp gave first aid, and a local physician was called, but to no avail. The coroner was called and found death due to accidental drowning. The deceased was 40 years, 6 months, 8 days of age. He leaves a wife.

Thousands of Mothers Know Its Value.

The Family Medicine for Coughs, Colds, Colic, Cuts, Scalds, Burns, Chills, Insect Bites.

YOUR MONEY REFUNDED

if it fails to relieve. Try a bottle. Sold by all dealers.

Our Prices Always Lowest

We prefer to sell our goods from our store, so our customers can see what they buy and buy what they see, but many goods in our line can be shipped from factory, thereby saving many expenses. Buying for cash with order, direct from factory enables us to sell at "rock bottom" prices. Below are a few of our many bargains.

Save Money on Blacksmith Tools

We have everything the blacksmith can find use for in his shop—tools of every description. Prices the lowest. Anvils from \$1.75 up; Box vice, \$3.45; Fork drill, \$3.45; Portable Forges, \$4.35. Call and get our prices before buying.

Ready Roofing, Per 108 Sq. Ft

THE NORWAY ADVERTISER

Subscription Rates: \$1.50, \$2.00, and \$2.75 a year according to the time of payment. Births, marriages and death notices free. Cards of thanks, memorial verses and resolutions, \$1.00 each or according to space used. All notices and advertisements must be paid for in advance. In this office no reading notices free. Notices of church and society entertainments, where an admission fee is charged, must be paid for at 10 cents per line, except when all printing for the same is done at this office, when no fee notice will be given. When ordering the address of your paper changed please give the OLD as well as NEW post-office address.

Coming Events.

Aug. 22—Jocelyn at residence of Mrs. G. E. Savin, Norway, Me.
Aug. 25—Democratic Rally, Opera House.
Bryant Pond.
Aug. 26—11th Annual Reunion, Norway Lake School Association, Norway Lake Schoolhouse.
Aug. 26—Auction at the Amos Libby homestead at North Bridgton.
Aug. 27—Progressive Rally and Flag Raising, Norway Opera House.
Sept. 12-17—Oxford County Fair, Norway-South Paris.
Oct. 6-8—West Oxford Fair, Fryeburg.

WEST PARIS.

Mrs. Warren and daughter Edna of Great Barrington, Mass., visited her nephew, John Brock, and family last week.

Ezekiel L. Porter and family visited Mrs. Porter's relatives in Troy, N. H. They went in their auto and spent several days returning Saturday afternoon. The Oisfield Quarterly Conference will meet here at the Free Baptist church next week commencing Tuesday evening and continuing through Wednesday and to Thursday afternoon. Dinners both days and supper Wednesday night will be served in the Grange hall dining room. Everybody invited.

Mrs. S. T. White visited Mrs. I. L. Bowker in Portland, Friday and Saturday on her return from Ocean Park.

Mrs. A. D. Coburn is spending the week with a friend and Mr. Coburn's sister in Portland.

Ella Curtis visited her cousin, Mrs. Will Bowker, in Portland last week.

Edwin Brown spent the week-end with his parents and his wife at H. G. Brown's. Mrs. Brown returned with him to their home in Rumford.

Earl McFarlane of Portland has been spending his vacation with Mrs. I. F. Emmons and grandson, Karl Hayes.

Mrs. L. H. Penley is taking her annual vacation with Mr. and Mrs. J. F. Emmonston of Auburn on an auto trip. Donald is staying with his grandmother Riddon.

Miss Dana, who has been in failing health for the past few years, has had to take her bed and is quite sick. One of her nieces from Portland is with her.

Mrs. Clara Riddon recently received a visit from two cousins, Sibley E. Abbott of South Atlanta, Ga., and Mrs. William O. Stearns of Hamilton, N. Y.

Mrs. Lucinda Small of Berlin, N. H., is visiting friends here.

Mr. and Mrs. W. W. Dunham, Mr. and Mrs. F. L. Wyman and several others attended the G. A. R. Encampment at Summer, Wednesday.

Mr. and Mrs. C. H. Lane, Jr., entertained a dinner party of 17 relatives on Tuesday. Those who composed the party were, Mr. and Mrs. Staples of Portland, Mr. and Mrs. Moulton of Exeter, N. H., Mr. and Mrs. Eldon Stearns and daughter Mary, Mr. and Mrs. C. B. Stearns, Mr. and Mrs. Whitten and son of North Paris, Mrs. Miriam Estabrook and son of Berlin, N. H. Several others joined the party in the afternoon. It was a jolly party.

Mr. and Mrs. H. W. Dunham have returned from Five Islands where they spent the week with his brother, H. R. Dunham and family.

S. W. Dunham is with his daughter, Mrs. Fannie Hamilton at her summer home in Brooklyn, Mass.

Mr. and Mrs. E. J. Mann and Mr. and Mrs. Harrington Mann spent the week-end at Shagg pond.

Mr. and Mrs. C. F. Barden were in Portland and Fryeburg over Sunday. Several attended the annual Field Day picnic at the Fair Grounds, Norway last week.

Laura Barden has gone to Hebron as assistant postmistress.

Henry Walker, of Gorman, N. H., has been visiting Harold Perham.

Ivan Tuell of Walpole, Mass., is visiting his grandmother, Mrs. Melinda Tuell, and family.

G. L. Briggs is confined to the house with illness.

Mrs. W. G. Hammond and Mrs. I. A. 'horne and little daughter went to Locke's Mills, Thursday.

E. H. Stearns has sold an acre of land near Fred Berry's to the Finnish people for a cemetery.

Mrs. Eleanor Small of Farmington is visiting her niece, Mrs. Emily Field.

Mrs. Emma Berry was thrown from a carriage Saturday and was badly shaken up, but received no serious injury.

Mr. and Mrs. D. A. Grover are spending the week with his people in West Bethel and gathering in a few blueberries and fish at the same time.

Emma Swan is at home from Auburn for a two weeks' vacation.

The motor car is becoming more and more a valuable adjunct in the nation's affairs. Through it many have got the credit for final peace, the motor car is on the job all over the world and rendering services that cannot be estimated.

Mrs. E. B. Coy of Waterford, will hold a sale of hand-painted china and watercolors, at the W. H. Bailey variety store, on Saturday afternoon, August 22nd.

MARRIAGES.

In Fryeburg, Aug. 16, by Rev. Baman N. Stone, Walter E. Laroque of Lovell and Bertha M. Meserve of Fryeburg.

In Rumford, Aug. 10, Rudolf Besaw and Maggie Durt.

In Norway, Aug. 19, by Rev. H. L. Nichols, Arthur G. Douglass of Bethel and Ida May Hill of Norway.

BIRTHS.

In Rumford, Aug. 3, to the wife of Frank J. Lynch, a son.

In Mexico, Aug. 10, to the wife of Mrs. S. P. Pierce, a daughter.

In Rumford, Aug. 10, to the wife of George St. Pierre, a son.

In West Stearns, Aug. 15, to the wife of Melvin Allen, a daughter.

In North Waterford, Aug. 13, to Fannie and Walter Brown, a son.

In South Waterford, Aug. 13, to Charles W. and Emma (McGillivray) Colwell, a daughter.

In Oisfield, Aug. 14, to the wife of Stephen Winslow, a son.

In Oisfield, Aug. 14, to the wife of Leon A. Twitchell, a son, Albert Elmer.

DEATHS.

In Greenwood, Aug. 14, infant daughter of Mr. and Mrs. Newton Bryant, aged 8 months.

In North Waterford, Aug. 12, Dr. Charles M. Colledge, aged 49.

In Hebron, Aug. 12, E. S. Dunham, aged 20 years.

In Rumford, Aug. 9, Eva Chadburn, aged 20 years.

In South Paris, Aug. 15, Mrs. Lila S. Woodbury, aged 53 years.

In South Paris, Aug. 15, Harriett E. Douglass of Waterford, aged 88 years.

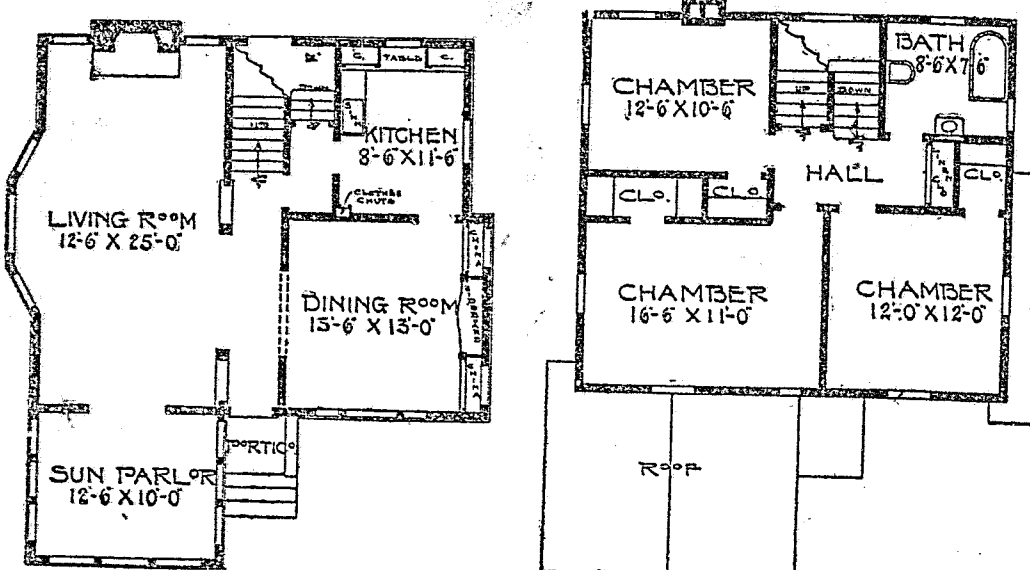

In East Oisfield, Aug. 11, Jos. Scribner Brown, aged 41 years, 4 months, 27 days.

STYLISH ROUGH CAST RESIDENCE.

Design 775, by Glenn L. Saxton, Architect, Minneapolis, Minn.

PERSPECTIVE VIEW—FROM A PHOTOGRAPH.

FIRST FLOOR PLAN.

SECOND FLOOR PLAN.

Exterior in rough cast, with brick carried up to the height of the first story window sills. The rough cast made pure white, with cornice rafter ends and window frames stained brown and a moss green stain for the shingles on the roof gives a very pleasing color combination for this design. Large living room across the entire side and sun room in front closed off with French doors. Dining room with built-in sideboard and china cabinet. Three chambers and bath in second story. Size, 30 feet wide and 26 feet deep over the main part. Full basement. First story, 9 feet; second story, 8 feet. Finished oak throughout first story. Birch or Washington fir in the second story. Birch or maple floors throughout. Cost to build, exclusive of heating and plumbing, \$2,850.

Upon receipt of \$1 the publisher of this paper will supply a copy of Saxton's book of plans, "American Dwellings." It contains about 250 up-to-date designs of cottages, bungalows and residences costing from \$1,000 to \$5,000.

Easily Explained.

"How is it your daughters have never learned to cook?"

"Well, I'll tell you. My daughters have always been so busy with the problems of the working girl, settlement house matters and the like that they have never had time for such academic matters as learning to cook."

—Louisville Courier-Journal.

Kings Classified.

"A king hasn't as much real power as some of the officials in a great republic."

"Of course," replied Senator Sorghum, "you are talking about one of those hereditary monarchs they have abroad. You don't mean a regular old king of a kind of finance."—Washington Star.

Won Every Time.

"Have you ever loved and lost?"

"Nope," responded the maiden promptly. "I've won every breach of promise suit I ever brought."—Cleveland Leader.

Son of Colonel Clark Edwards.

Mr. and Mrs. H. A. Edwards of Los Angeles, Calif., are visiting in this county. Mr. Edwards is a son of the late Gen. Clark Edwards, colonel of the "Fighting Fifth" of Bethel.

He has been a resident of "the only city on the Pacific Coast" for the past six years, going from Caribou there. Mr. Edwards at one time was in business at Bridgton. He has a brother, Fred L. Edwards of Bethel.

In speaking of Los Angeles he said it was "the only city" and a good place to live.

Oxford County Veterans.

The First, Tenth, and Twenty-ninth Maine Regimental reunion held at Long Island, Thursday, was attended by a number of veterans from Oxford county including:

Olden Charles, Stow.
Olive E. Coy, Waterville.
Greenville L. Hall, Buckfield.
Perry R. Hepler, Lovell.
Benjamin P. Hicks, South Paris.
Charles A. Hersey, South Paris.
Stephen G. McAllister, North Lovell.
Alben Moore, East Soudan.
Thomas Powers, South Paris.
Henry C. Pratt, Dixfield.
William F. Rounds, Brownfield.
William W. Whitmarsh, Norway.

Oxford and Norway Dairy Testing.

The Waterford and Norway Dairy Testing Association report for July shows the three highest herds in milk—E. K. Kilgore's 7 cows, av. 27.2 lbs. per cow; L. B. McIntire & Son, 15 cows, av. 25.7 lbs.; F. C. Shaw, 7 cows, av. 22.5 lbs.

Three highest Cows in Fat—E. K. Kilgore's 7 cows, av. 1.45 lbs. per cow; F. C. Shaw, 7 cows, av. 1.24 lbs.; S. H. & W. Abbott, 10 cows, av. 1.12 lbs.

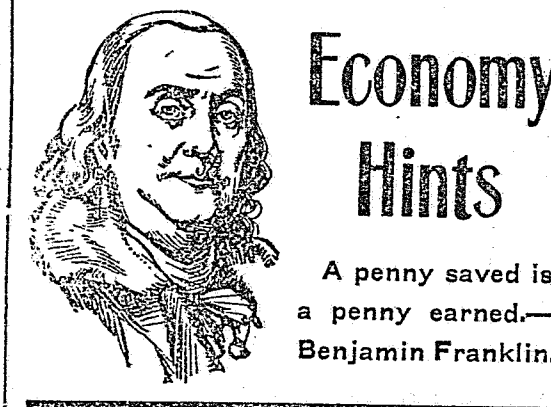

Three highest Cows in Fat—E. K. Kilgore's Daisy, 2.17 lbs.; E. K. Kilgore's Rosie, 1.91 lbs.; E. K. Kilgore's Tucker, 1.60 lbs.

Highest Cow in Milk—A. D. Cummings' Lady-Pairfax, 4.18 lbs.

Geo. A. Field of Auburn, is now in full charge of the permanent State road building in Oxford county and has a large number of men and engineers under his management. He has 32 towns to cover in his work but as the state furnishes him with an auto and man to drive it the work is made much more easy.

Economy Hints

A penny saved is a penny earned.—Benjamin Franklin.

How to Make Economical Soup.

SOUP makes the foundation of all soups, and the wise, economical housewife will keep a quantity of this on hand.

Clear soup is made of the cheaper cuts of fresh meat and bones. The bones and trimmings of roasts should always be utilized (the bones should be cracked).

They add greatly to the strength and thickness of the soup. If used in abundance the stock will become a jelly when cold.

The stock is prepared by boiling and extracting the meat juices. The cheaper portions of meat are used. The shin bone is often bought, but the neck makes a stronger and more nutritious soup than any other part of the animal.

One pound of meat and bones—the allowance for one quart of water. Allow this to simmer for four or five hours in a covered kettle. Never allow it to boil rapidly. Use more boiling water if needed. Skim carefully from time to time. Do not salt until the meat is tender, as this tends to toughen it. Add salt, a little pepper, strain through a sieve or jelly bag and pour in fruit jars.

The fat will form a cake on top of the stock is cold. This will help to preserve the stock. Remove the fat when ready to use the stock.

To make soup of this use a portion of the jelly, add water and ingredients, such as rice, barley, macaroni, noodles or vegetables and seasoning.

Another way is to add the seasoning to the stock, such as a small onion stuck with four or five cloves, several bay leaves, one-half a teaspoonful of thyme, three carrots and a stalk of celery or half a teaspoonful of celery seed. This takes time to make, but one has the foundation and substance for many soups.

No Wonder!

The tired business man was found in a state of collapse on the sixth floor of a downtown office building. Restoratives were applied, and he sat up feebly. "I'm all right now," he explained. "You see, I wanted to go up to our other office on the tenth floor—and (here he gasped for breath)—I found the elevator—going—up!"—New York Post.

Followed Copy.

Father (to little son returning from horseback ride)—Got a fall, did you? Well, I hope you didn't cry like a baby. Son—No, dad. I didn't cry. I just said one word—the same as you'd have said—London Punch.

Norway and Vicinity.

(Continued from page 1)

Base Ball.

Norway defeated the fast Kamp Kohut team Saturday, August 15th in a game that was a struggle from start to finish.

Kohut had men on in nearly every inning, but Hunt tightened up in the pinches and kept them from scoring.

The feature play of the game came in the sixth, with one out Kohut had men on second and third, Fredericks drove the ball to deep center. Dunham got it and by a perfect throw out off the man at the plate.

The Veranda Club 'Observes Annual Children's Day.

Thursday, August 13th was observed by the Veranda Club as Children's Day at Central park.

The day being pleasant a good attendance was noted. A larger number of children were present this year so the day passed more pleasantly for the little ones.

Hammocks were in readiness for all who enjoyed a swing, while the ever interesting game of croquet was in order. Sewing and fancy work were taken up by the members, while the young ladies present by invitation enjoyed a good book.

The noon hour was devoted to a basket picnic dinner, hot cocoa and lemonade was served, which gave a finishing touch to the menu.

At 1:30 P.M. all assembled in the hall where a fine program under the management of Alta J. Sheen was enjoyed.

BAD ROADS EXTRAVAGANT.

The Hon. Champ Clark says: "I saw it stated once that the energy, material, animal life and time wasted in this country by reason of bad roads amount to the enormous sum of \$400,000,000 annually. This is astounding and may be exaggeration, but it is known that the waste is enormous. This state of affairs is so easily bettered that it is idiotic, if not criminal, to let it continue. Twenty odd years ago I advocated building by convict labor four great roads across Missouri. I was twenty years ahead of my time, but I rejoice that what I suggested then, and even much more, is in contemplation and near fruition."

THE INFLUENCE OF GOOD ROADS ON HEALTH.

A Point In Their Favor That Has Not Received Much Attention.

The influence of good roads on public health is a point in their favor that has not received much attention. The Kansas state board of health puts the feature in the foreground and wants modern improved roads in that state because they prevent disease.

They do this because they afford drainage. A good road can never remain a good road unless it is well drained. The roadbed must not have any standing water either on its surface or below the surface. It must have drainage, and the gutters beside the roads must have slope and be kept free from obstruction so that all surplus water can escape quickly and easily.

An old fashioned, ill drained road, with its frequent pools of standing water on the road or by the roadside, with its ditches filled with weeds, brush and all sorts of trash, is a breeding place of insect life. Mosquitoes, flies and other insects, such as chinch bugs and grasshoppers, multiply there in profusion. It is these insects which either carry disease or are of the kind which destroy the farmer's crops. For these reasons well built, well drained highways are a double benefit since they give the farmer the inestimable advantage of easy communication with his market at all times of the year and by improving the drainage check the breeding of harmful insects.

Good roads mean, therefore, not only a great saving of time and labor for the farmer, but the improvement in the hygienic conditions of the farming community. He is brought nearer to his market, the hauling capacity of his teams is greatly increased, and he is no longer marooned on his farm for many weeks each year owing to the impassable conditions of the roads. That health is promoted as well as comfort and wealth by good roads should give the argument for their construction irresistible force so that their building shall not cease until the whole country is lined with them.

SCOTLAND FOR GOOD ROADS.

Projected Construction of Experimental Road Sections In Scotland.

In December, 1912, according to an article in a recent issue of the Journal of the Institution of Municipal and County Engineers (Great Britain), the Scottish District of the Institution of Municipal and County Engineers appointed a committee to "collect and tabulate data as to improved methods of road construction and particularly information as to the effect of climatic conditions taken in conjunction with traffic upon experimental road lengths to be laid down in districts in Scotland which have distinctive climatic conditions."

After having the matter under advisement the committee decided to put down experimental road lengths in a number of districts in Scotland. Arrangements have been made for the location of these sections in parts of that country where the climatic conditions are suitable for the experiments and where the local surveys will co-operate with the committee. Provisional arrangements with county surveyors have been made.

It is stated that the road board is co-operating with the institution in this work and that it is expected that the experiments will be of exceptional interest on account of the close consideration it is proposed to give to the effect of climate. It is also expected that the great variations in climatic conditions in Scotland will facilitate the isolation of the factor of weather effect in the destruction of road surfaces.

Rubber Roads.

The proposition to build rubber roads has been seriously put forward in London. It is said that the vibration in the streets due to the heavy solid tired motor trucks and omnibuses has become so great as to constitute a serious menace to the integrity of old buildings. It is, besides, in some portions of the city an intolerable nuisance to the office workers. The case of the region about St. Paul's cathedral is cited in particular. It will soon be a question there of reducing vibration at any cost. And, although it has been calculated that a rubber road to compete commercially with wood blocks or asphalt must have a life of fifty years (which of course it would not have), the big cities may be driven to such roads in congested districts despite their high cost.

Over fifty automobiles have made the ascent of Mount Washington by the carriage road this season.

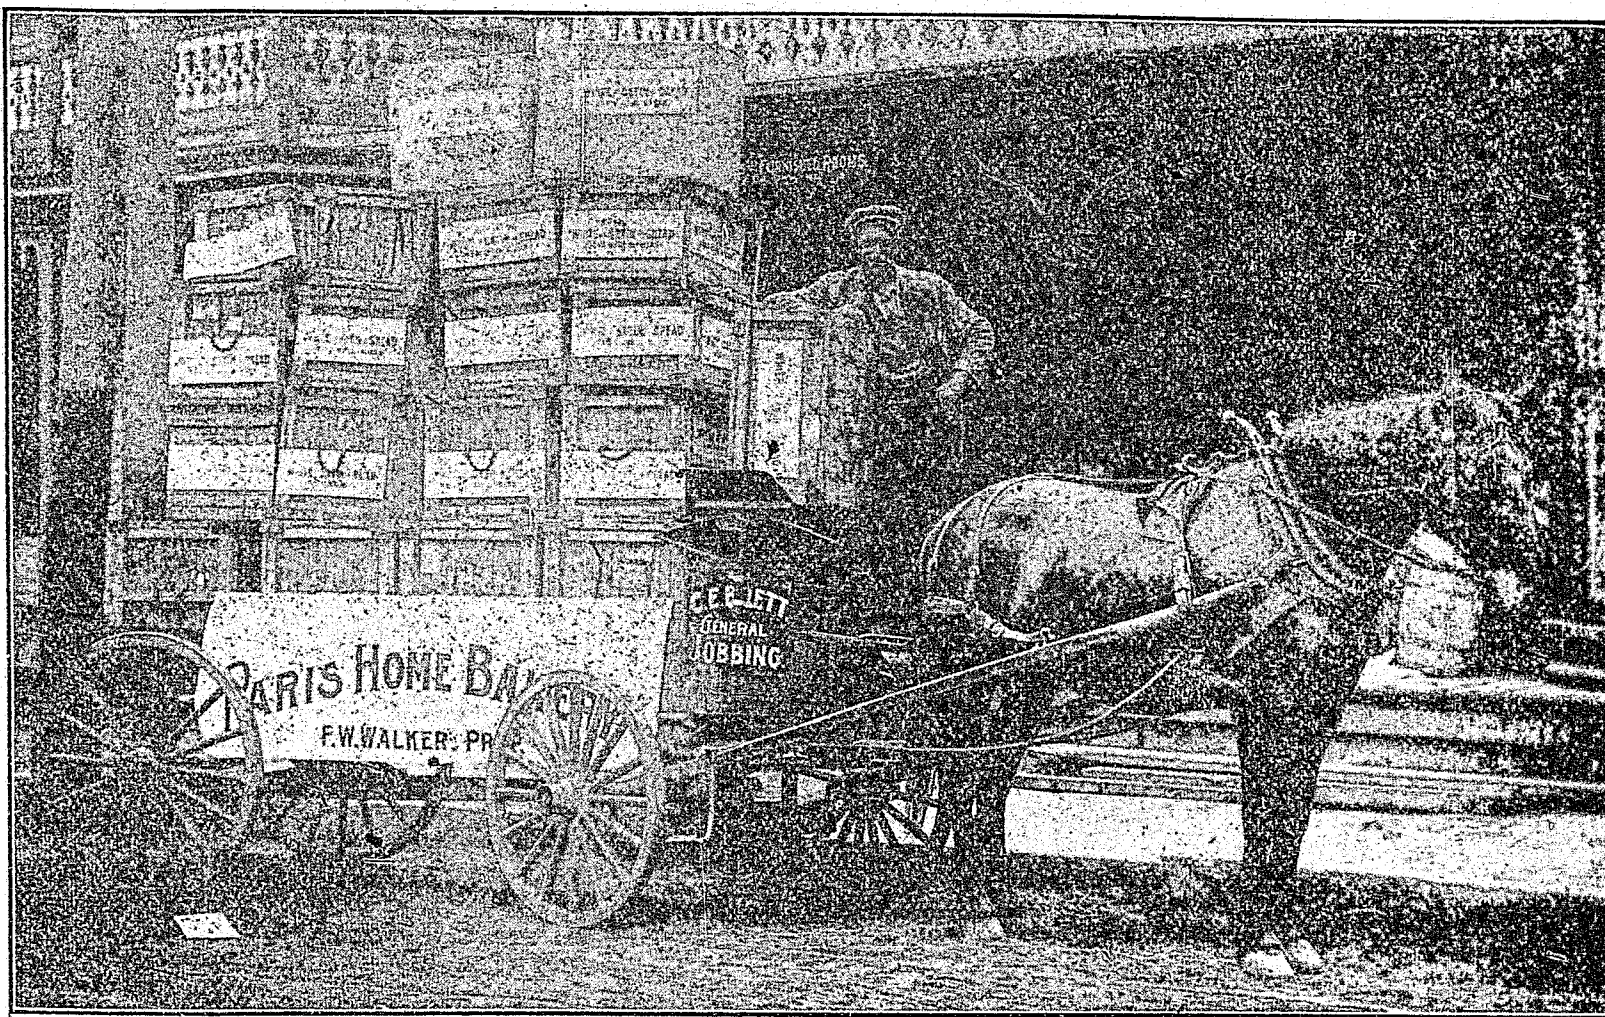

EAT WHITE SATIN BREAD

The Best Bread Made

It Stands the Test

A FEW INTERESTING FACTS

The popularity of our goods is not confined to our home territory. The following cut is an exact reproduction of single shipment of food to points outside of Norway and Paris, nearly every case of which displaced many of the much advertised bread on this market.

NORTH WATERFORD.

Dr. Charles M. Coolidge. We feel that a great sorrow had come to our community when our physician, Dr. Charles M. Coolidge, was taken from us to the land beyond. He had not been feeling well for some time but had tended his patients until about two weeks before his death.

He had a very large practice and rode many miles night or day when called and will be greatly missed, and as many say, "I don't see how we can get along without him."

The day he was taken away he took his auto with friends and went for a ride and got bothered some in the mud which tired him and after he arrived home had a bad spell and Dr. Sylvester was called and he had another bad turn and didn't come out of it and passed away about 8 o'clock in the evening, Aug. 18. He would have been fifty years old in September.

The funeral was held at his home on Friday at 2 p. m., and there was a large attendance. He was a member of the I. O. O. F., the Masons and Knights of Pythias. The Masons attended in a body and held services. The floral offerings were many and beautiful. He is survived by a daughter and one brother.

Rev. C. N. Eliopoulos, Rev. Mr. Wilson and Rev. G. W. Sias attended and spoke many comforting words. He was laid at rest in Woodlawn cemetery beside his wife.

Dr. A. J. Stimpson is boarding at Will Rice's and has his office there. I understand he wishes to purchase a place as he wishes to move his family here. Mr. and Mrs. G. E. Farmer and Master Millard Littlefield were Sunday visitors at F. P. Hazelton's. Mr. and Mrs. W. D. Moulton and Richard Perkins went to Conway, N. H., Friday afternoon in their auto.

Mrs. Alphonzo Charles invited Mrs. E. J. Paige to Norway with her Tuesday on the stage auto. They spent a very pleasant day. Irvin Morey, who is working at Durbin & Littlefield's mill, is boarding at Fred Hazelton's. Silas Stearns, Ernest and Philip McGray are working there.

John Evans is helping widen and build over the piazza at F. P. Hazelton's. Sadie Rowe is at home from her school for a short vacation.

Bertha Clark came home from Locke's Mills for a few days. Her sister, Grace Stanley came and will stay now. Mrs. Freeman Stanley is in very poor health. Lincoln Holmes of Norway has purchased the John McAllister place and is moving there.

Rice Neighborhood. Fannie Hersey has returned from North Bridgton where she has been working for Mrs. Alice Freeborn.

Blanche Farwell is visiting at B. N. Rice's. Mr. and Mrs. Arthur Fitz and daughters are visiting at G. H. Rice's. Vera Rice has returned from Mrs. Cheever's. Mrs. Clara Beane and son Gerald are visiting at Dea. E. B. Hersey's. B. N. Rice and wife took dinner Sunday with her parents, Mr. and Mrs. Frank Bell. Bertha Bell has been visiting her sister, Mrs. B. N. Rice.

EAST OTISFIELD.

John S. Brawn.

The death of John Scribner Brawn, occurred Tuesday morning, August 11th at his home in East Otisfield.

The deceased was born March 14th, 1875 and was the only child of John G. and Bertha D. Brawn.

He had been in poor health for a number of years, having consumption of the long lingering kind and as the disease progressed his sufferings were great. But no one ever heard him groan or complain, ambitious to work and be helping, he kept about until a short time before he passed away.

The blow falls heavily on his mother, who has been in a very enfeebled condition from heart trouble for two years. He was her constant companion, never thinking of himself as long as he could do anything for her comfort.

Johnny (as he was familiarly called) had many friends and the many little kindnesses shown him through his long and discouraging illness testified to their thoughtfulness for him.

The funeral was held at his late home, Rev. Mr. Kneeland reading from the scripture and spoke comforting words. Albert Weston, friend of the deceased sang a solo, and a prayer by the pastor closed the services.

The bearers were chosen from his old schoolmates and friends, Bertrand Kemp, Maurice Kemp, Albert Holden, Harry Stone and Fletcher Scribner. A large number of friends and neighbors were present and the casket piled high with beautiful flowers was a silent tribute of respect from his many friends.

His favorite little horse he had owned and driven so long, bore Johnny to his last resting place in Elmwood cemetery. Names of those who brought flowers: Mr. and Mrs. Brawn—Wreath. Olin Hancock—Sweet peas. Seaside girls—Sweet peas. Mrs. Knight—Asters. Mrs. Q. Dill—Roses and asters. Mrs. White—Nasturtiums and petunias. Mr. and Mrs. Schatzel—Golden glowers. Mrs. Arthur Love—Mixed flowers. Sunshine Society—Carnations. Mrs. Kemp—Nasturtiums. Mrs. Arthur Love—Mixed flowers. Mrs. Ida Jilison—Asters and sweet peas. Ruby Jilison—Pansies. Eva Frost—White dahlias. Mrs. Elbridge Edwards—Pink dahlias. Mr. and Mrs. Albert Chase—Mixed flowers. Mr. Verne—Mixed flowers. Mrs. Annie Wood—Dahlias and mixed flowers.

Mr. and Mrs. Dexter Nutting—Sweet peas. Mr. and Mrs. Kneeland—Dahlias and mixed flowers. Mr. and Mrs. Louis Bean—Dahlias. Mr. and Mrs. Mathewson—Set piece. Mrs. Arthur Records—Bouquet.

Wednesday the 12th, the sewing circle met with Mrs. Carrie Wood. A large number were present for they were getting ready to see about having a sale and bake bean supper at Bessie Kemps' Wednesday, August 19th, afternoon and evening.

Ralph Lamb from Providence, R. I., is visiting at the home of his parents, Mr. and Mrs. Edwin Lamb.

Forrest Lamb from Alfred, is stopping at E. R. Stone's.

Mr. and Mrs. Peter Wood went to Portland and Sunday to see Minnie Wardwell, who is quite poorly, and is under the doctor's care.

John Pottle, Bertha and Minnie Kemp will teach school in town this fall. Samuel Loring and wife from the west are visiting their brother Ned and sister, Hattie Loring. It had been 47 years since they have seen each other.

Ada Marden from Massachusetts is visiting relatives and friends in this place.

M. Love has bought the hay on the James Horne place.

SOUTH WOODSTOCK.

John Curtis went to Lewiston, Sunday, for a few days and while there attended the Progressive meeting to hear Roosevelt.

Mr. and Mrs. Chas. Woodbury and Mr. and Mrs. B. Fogg of Somerville came Saturday by auto to W. S. Davis' place to visit. They will also go to Dudley Cottage and Camp Brockton in Newry before returning home.

Edwin Taylor of Boston is spending his vacation with relatives and friends here.

Elder Dana and wife of Portland are spending a week with A. R. Hendrickson and family, and while here Mr. Dana is holding evening meetings at the Advent church.

The ashes of Mrs. Charlotte Andrews Benson of Los Angeles, Cal. were brought here last week and buried in the family lot.

Ellis M. Davis visited his aunt, Mrs. Scott Merrill, in Norway last week. A bear was seen in a field below Frank Davis' house recently. Several got their rifles out but the bear got away and went for Spruce mountain.

Mildred Bosserman of Bethel spent the week-end with Mildred Perham. F. R. Andrews and Martha Barrett are visiting in Portland. They intend to go to Portsmouth, N. H., before returning home.

A. M. Andrews, Harlan Andrews, F. B. Davis, Roy Titus and W. S. Davis went by auto to Lewiston, Tuesday. Clarence Hilton of Waterford, who has leased the Harry Sanborn farm, is cutting the hay and will soon move here.

A. M. Andrews has a new Overland automobile. It is a beauty. Granville Felt is in poor health. He was given a post card shower Tuesday. Forrest McDaniels of Norway will play for G. W. Davis at his dance Saturday night.

Mrs. Emma Barrett of Sumner is the guest of Mrs. Gertrude Andrews. Mrs. Julia Davis and E. B. Davis went to Mechanic Falls, Thursday, to see the parade.

An auction will be held at the Amos Libby homestead at North Bridgton on Wednesday, Aug. 26, at 1 o'clock, when a lot of household goods will be sold. D. M. Stuart will be the auctioneer.

Mrs. M. V. Whidden
of Sebecton, Maine, would not keep her without "L. F." Atwood's Medicine. She has learned what other thousands know—the splendid tonic effects of this medicine—through the stomach—on the entire system. Read what she says: "I wish to write a word in praise of 'L. F.' Atwood's Medicine. We have used it in our family a long time, and never intend to be without a bottle in the house. It is a wonderful stomach remedy." (Signed) Mrs. M. V. Whidden. A big bottle costs only 50c at your dealer's. If you have never tried this medicine ask us to send you a Liberal Test Bottle. "L. F." Medicine Co., Portland, Me.

Nothing Better

than bread and butter—when the bread is made from **William Tell Flour**. Nothing more wholesome, either, or a better food for growing children, because **William Tell** is made from Ohio Red Winter Wheat, richest in nutritive value. Milled by a special process, **William Tell** goes farther. More loaves to the sack in addition to wonderful bread making qualities.

William Tell Flour

C. B. Cummings & Sons, Norway, Me.

Who Can Doubt Sworn Testimony of Honest Citizens

Some time ago I began the use of your Swamp-Root with the most remarkable results. For years I was almost a wreck and was a great sufferer. The doctors who treated me made me believe that my great sufferings were due to female trouble. I was so bad at times I would faint away and had sinking spells. Finally a new doctor was called in and he said that I had kidney trouble and gave me medicine, of which I took several bottles. I obtained some relief from this but I was getting weaker all the time; I could not sleep and suffered so much pain that my husband and children had to lift me up and out of bed. After this time two friends sent me word to try Swamp-Root, which I did, and I am glad to state that the first dose gave me great relief. After taking the third dose I was helped into bed and slept half of the night. I took several bottles of Swamp-Root and I feel that I owe my life to this wonderful remedy. The two family doctors said that I could not live three months. I would have to be helped in and out of bed ten to twenty times every night. After taking Dr. Kilmer's Swamp-Root for two days I was entirely free from getting up and could sleep soundly.

MRS. D. E. HILMAN,
Tunneton, V. Va.
Personally appeared before me, this 11th of September, 1909, Mrs. D. E. Hilman, who subscribed the above statement and made oath that the same is true in substance and in fact.

JOSEPH A. MILLER,
Notary Public.

Letter to
Dr. Kilmer & Co.,
Binghamton, N. Y.

Prove What Swamp-Root Will do For You. Send ten cents to Dr. Kilmer & Co., Binghamton, N. Y., for a sample size bottle. It will convince anyone. You will also receive a booklet of valuable information, telling about the kidneys and bladder. When writing, be sure and mention the Norway Weekly Oxford Advertiser. Regular fifty-cent and one-dollar size bottles for sale at all drug stores.

One Pound Butter Cartons.
We can furnish you with collapsible tuck-end heavy card board butter cartons of the standard one pound size for 60 cents per one hundred. If they are to be sent by mail add 5 cents. Sample carton sent on application. Enclose a two cent stamp.
P. W. SANBORN, Norway, 27th

ANDREWS
Real Estate Agency
No 50, NORWAY VILLAGE, House, double tenement, well finished, in good repair, on lot 65x147. Fruit trees and large garden. A chance to keep hens and cows. Price \$1,075. Norway—P. P. Stone's, Noyes Drug Store, A. L. Clark Drug Co.
Norway Lake—Norway Lake Supply Co.
So. Paris, O. H. Howard Co., A. E. Shurtwell, Bethel.
West Paris—S. T. White, Waterford.
Harrison—H. R. Rounds.
Orders for single copies at 4 cents each sent direct to the office of publication will be promptly filled. ADVERTISER, Norway, Me.

Brief Sketches of Local Business Enterprises.

Everett Bicknell.
Everett Bicknell has for the past twenty years occupied the store next to the Opera House Block, where he has sold sporting goods and groceries.

Mr. Bicknell was born in Buckfield in 1854. Up to the time of going into the grocery business he worked as a carpenter.

In '78 he married Lizzie Bennett of Buckfield. They have one daughter, Grace, who teaches in the Perkins Institute for the Blind in Waltham, Mass., and is at present in Germany.

In 1891 he went in partnership with Henry Hamlin, the firm being known as Hamlin & Bicknell.

The fire of '94 burned them out and for a time Mr. Bicknell kept store in the rear of the Elm House. The partnership was dissolved, Mr. Hamlin being engaged in business in Portland. A few months after the fire Mr. Bicknell went into his present store.

Mr. Bicknell is a Past Master of Oxford Lodge, No. 18, F. and A. M., and a member of the Universalist church.

The Pure Food Store.

The Pure Food Store, formerly H. J. Bangs' store, was run 20 years by Mr. Bangs until he went in business in Portland. At that time, 3 years ago last April, the present firm of Drake & Brooks, bought him out and have continued business.

There has been no break in the business as for 10 years Mr. Drake was head clerk for Bangs.

Howard Drake, the senior partner of the concern, was born in Auburn.

He there worked in the firm of Ham Bros., and came to Norway 15 years ago, at first working 5 years in the shoe shop and then in the present store. Mr. Drake belongs to the Woodmen and Foresters.

By a strange coincidence Louis Brooks started to work for James Tubbs on the same day, and it was on the anniversary of that day 10 years after when they went into partnership.

Louis Brooks was born in Littleton, N. H., in 1876, and came to Norway in '96. He has been in the shoe shop, then for Ed. Winslow, and later for James Tubbs. He is a member of the Odd Fellows Lodge and of the Universalist church.

The clerks at present employed are Floyd Haskell and Cleve Goodwin, both Norway young men.

The Pure Food Store, as its name implies, endeavors to supply pure, wholesome food. Neatness is the first rule. No goods are ever exposed, being boxed and screened in and in the case of the windows, glassed in. Their line of fancy groceries is large, many novelties being carried that generally can be had only in the large city stores.

Harken Back on The Past.

Twenty-five Years Ago This Week.
Otho Bean, clerk for P. H. Noyes, is off on a vacation and George Devine is helping out in the store.

When business is dull don't take down your sign. You will get left if you do. Keep the sign up and advertise in newspapers all the more.

John Hill of the Pine House with his long eared horse, is now peddling apples on the street and in the shoe factory.

Henry Bangs has returned from a six weeks' vacation. This week he starts for Exeter, Dover and Portsmouth on the look-out for work.

Chila May was born in Berlin, N. H., and sang in all the principal cities in the United States and the Provinces.

The heavy weight ball players have a banquet at the Beal's House.

J. W. Parson at the Paris Flouring Mills is making flour from Oregon wheat and selling it at \$2.00 per barrel.

Eben Weeks is Fryeburg's heaviest tax payer, \$319.85, and A. J. Jenness next, with \$298.10.

NORWAY AND VICINITY.

Mrs. Alice Marston went to Rumford Sunday to visit her sister, Mrs. Frank P. Putnam, for a few weeks.

Mr. and Mrs. F. W. Sanborn, who have been spending six weeks at the "old home" at Meredith Center, N. H., returned Saturday afternoon. Dr. and Mrs. G. M. Whitley of Portland were with them in their auto, and spent a day there.

Mrs. Alfred Chandler went to Portland, Sunday afternoon with her nephew, Dr. W. D. Williamson, and wife.

Paint Better.

Better isn't enough; paint best. A man bought a sheep; saved 20c or 30 or 40 or 50c a gallon didn't he?

Yes, and bought 40 or 50 or 60 or 80 per cent more gallons; how much did he make on his paint?

And he paid for painting those gallons—fair day's work is a gallon—how much did he make on the labor part of his job?

He lost a quarter or a third of his money. How long will it last? not his money, the paint?

Perhaps half as long as Devos. How long will his money last, if he buys other stuff as he bought that paint?

Better buy the best paint; it makes the least bill and least-often.

DEVOS
F. P. Stone sells it.

INTELLIGENCE COLUMN

Twenty-five words or less, one week, 25 cents; second week, 15 cents; each additional week, 10 cents.

Each word more than 25: One week, 1 cent and each additional week, ½ cent. Price 12c for 100 words. One cent and two-cent postage stamps taken.

RENT TO LET—Sept. 1, inquire of G. W. Chick, No. 3 Paris street, 32nd.

FOR SALE—Four choice orchards of grapes, fruit, and two farms, all in high state of cultivation. Walter S. Buck, Norway, Me., 30th.

FOR SALE—Dr. Williams' Heart Tonic, \$1.00 per box, delivered by mail. William H. Austin, Agent, Norway, Me., Route 2, 28-38th.

FOR SALE—A piece of land, eight acres, suitable for house lots. Apply to Mrs. Fred S. Morse, Pike Hill, Norway, Me. 16th.

Judge Morrill N. Packard.

Among Norway bred boys who have left their old home and gone out in the world to make their record and who come back to Norway as the summers go by as do the pilgrims to Mecca, is Judge Morrill N. Packard of Baltimore, Md.

Although Judge Packard was not born in Norway, he is a product of the Oxford Hills, being born in West Paris, May 28, 1858. His father was Amos Packard and his mother, Lydia Herriek Packard, a sister of Judge Addison E. Herriek of Bethel. He has two brothers, Benjamin F. of Washington State and Roscoe M., of Baltimore.

Up to his seventh year Judge Packard lived with his parents in Lewiston and Locke's Mills. While in the latter place he vividly remembers the train coming from the station with Amos and Lydia, carrying flags, bearing the news of Lee's surrender.

About '65 the Packards moved to Greenwood, living in Richardson Hollow until '78, when they moved to Norway.

Judge Packard attended the Norway Liberal Institute, having for schoolmates George Howe, Don C. Seitz, Richard E. Clements and other well known Norway people.

Among his teachers were O. M. Metcalf, Charles Black and O. W. Collins. Judge Packard has many interesting anecdotes. He tells the following about Don C. Seitz: At that time O. W. Collins was principal of the Institute. It was the custom to have each boy and girl recite a verse of scripture in answer to a question at roll call. It was a little late, the boys were unprepared, "Jesus wept," was generally given until that was forbidden. One morning Don Seitz came in late and all unprepared, was asked for his verse. Right out came the answer, "Blessed are they that expect nothing for they shall not be disappointed."

While in Norway Judge Packard attended the Universalist church and was secretary of the Sunday School. He was an intimate friend of Rev. J. A. Seitz, who wanted him to go into the ministry. In connection with his Sunday School work, Judge Packard had written an address on "Our Existence and Its Meaning." Mr. Seitz persuaded him to take a tour through Franklin Counties, make this address and get subscriptions for the New Englander, which was published, although not a success financially it was interesting to the Judge as on this tour he made his first extemporaneous speech. The people taking the Judge for a minister, asked him to officiate at a funeral. Having unbounded confidence in himself, he accepted. When he began to realize what he had done and he didn't sleep a wink. The next day however he carried it through well, making such an address that a year later the people sent a letter addressed Rev. Morrill Packard, asking him to attend another funeral. This was in his 21st year.

Another literary effort was an article written for the Norway Advertiser and set up by the author himself in the office. At that time Simeon Drake was Editor.

The Pure Food Store, as its name implies, endeavors to supply pure, wholesome food. Neatness is the first rule. No goods are ever exposed, being boxed and screened in and in the case of the windows, glassed in. Their line of fancy groceries is large, many novelties being carried that generally can be had only in the large city stores.

From Norway Judge Packard moved with his father's family to Lynn in '79. There he married Mary, daughter of B. A. Tryphosa, being in his Sunday School class.

Two years later Judge Packard moved to Baltimore. Soon after his arrival he got into politics. In '84 he received the appointment of reading clerk in the Baltimore city council, where he served 3 years.

Interest in politics prompted him to go into law, and in '88 he received his degree from the University of Maryland. He was immediately admitted to the bar and has had an increasing practice before all the higher Maryland courts. One of his cases before the U. S. Circuit Court covered 800 pages of the court records.

In 1904 Judge Packard was appointed Judge of the Juvenile Court by Gov. Edwin Warfield. He served two terms unopposed, and was later reappointed two terms by Gov. Austin L. Crothers. He has been recognized as one of the foremost Juvenile Court Judges of the country. The work is of especial importance in its bearing on the young people of the city. The court has jurisdiction over the juvenile delinquents of 16 years and under.

There is no jury and no attorneys. Responsibility rests entirely on the Judge. Between 25 and 30 thousand cases were tried by Judge Packard alone. The Baltimore Juvenile Court has served as a model, men from many different states coming to study the same, one even coming from Kaiser William.

In politics the Judge is a Democrat. He has always opposed the corrupt Democratic ring of Baltimore. One of his strongest addresses, "The Voter and the Party," given to prevent the disenfranchisement of large numbers of negroes, and white people in the State. The address was used as Campaign ammunition against this act and by its clear and logical statements had much to do with the defeat of the measures.

Judge Packard is closely acquainted with Maryland politicians, being as personal friends many of the most influential men of the State.

The address that stamps Judge Packard as one of the country's ablest orators was given at the meeting of the Society of the Sons of the American Revolution in the Belvidere Hotel in Maryland.

This was called "Minute Men," it gives the idea of the patriot of that time and tells what he did of today. As an unprecedented act in the society this address was spread on the records of the society and copies were sent to different chapters.

Judge Packard is at present staying with his wife at Ed. Packard's, his cousin.

EAST SWEDEN.

H. H. Bisbee has a new gasoline engine for doing light work around the mill.

W. L. Marr and son, Earle, are making apple barrels for H. H. Bisbee.

W. M. Flint with team worked for Winfield Stevens; also Wyman Kimball.

Wyman Kimball, Wm. Kimball and Earl Marr helped A. H. Haskell in buying.

C. O. Kimball and son Bert have been cutting their own hay, helped Dorance Knight and Charles Bailey. They also cut the hay on the O. R. Maxwell farm and helped cut the hay for Mrs. Kelson.

A. G. Critchett of Boston stopped at O. H. Haskell's recently while doing business in this section.

A. H. Smart has been peeling bark for Winfield Stevens. Mr. Stevens has been cutting bushes and cleaning up land for pasture.

Emma Kimball of Bridgton visited at D. T. Adams', recently.

Recollections of the Early Settlers of Greenwood.

By Professor A. E. Verrill of Yale University.

In my former article I described merely the village of "Greenwood City." In this, I propose to recall some of the neighboring farmers, as I knew them, when a boy.

Looking southward from the village was the broad northern slope of Herriek mountain, also sometimes called Flint mountain, mostly cleared and occupied by several farms, the houses being in plain sight from the village. But now the farms are mostly overgrown with trees and shrubs.

Those nearest were then occupied by Edward Whittle, Enoch Cordwell, and Isaac Flint. Near Edward Whittle lived his father, Elder Ed. Whittle, as he was called, a short, stout, white-haired old man.

He came from Virginia and lived to be over 90 years old. He used to preach sometimes, and pray often, in the Methodist church, and tell of his "experiences" and conversion, in a most thrilling and awe-inspiring way, in camp meetings and on other occasions. I don't think anybody ever believed that he had been the sinner that he made himself out to have been. In the great Millerite excitement, he joined that sect. He came to our house in the morning of the day appointed for the great second coming to heaven, at exactly 12 o'clock noon. He was dressed in a white robe, like all his brethren and sisters, and was dead sure they were all going up. Yet, funny enough, he accepted my mother's invitation to "come in" at 1 o'clock. He came. The Millerite excitement at that time was widespread. I used to hear about one woman who dressed in a single cotton robe (white at first) and crept from Norway to Paris Hill on her hands and knees, to offer the spiritual inheritance to become "like a little child." Edward Whittle drove the mail wagon between Norway and Greenwood for several years, much of the time so ill that he could not sit upright, and had to grovel on the way, but it was never re-ordered. Very likely his case, as I remember his symptoms, was chronic apoplexy, but that disease was not then recognized. He had four sons: Robert, Wesley, Wilber and Milwood. Wilber was in the army, I think, and a daughter, Elizabeth, of about my age, was also a schoolmate. She married Berton Shaw. She had a sister, Mary, who married A. Hall and moved to California. Milwood and his wife died nearly at the same time in 1914. They lived in Malden, Mass., and were in the history of Norway, page 610. His place later became the town farm.

The founder of the Cordwell family in Greenwood was William, who is said to have come to Cape Ann, Mass., from Scotland. He came to Norway in 1815, and probably settled in Greenwood soon after. He died February, 1883, aged 77 years. He married Tryphosa Leach, who died June, 1844, aged 58 years, 10 months.

He had a large family. His son, Enoch Cordwell, was a brother of Elijah and Francis Cordwell, of Greenwood, and of Wm. Cordwell, of Oxford. One of his sisters, Eunice, was my parental grandmother. Another sister, Mary, married Micah Upton, of North Norway, whose family record is contained in Lapham's History of Norway, page 12. Another sister, Tryphosa, married Isaac Patch. Ann remained unmarried; Abbie married Amos Richardson. Tryphosa lived with Gritman Cordwell a number of years after the death of her husband.

Enoch Cordwell died September, 1854, aged 58 years. He married Mary (or Polly) Bearce, who died July, 1856, aged 52 years. They had three sons and three daughters. Charles, the eldest, went to sea. He died unmarried in 1855, aged 50 years. Horace went on whaling voyages. He died, unmarried, a few years ago, in the Massachusetts Marine Hospital, at Chelsea, Winfield, who is still living in Norway Village, aged 74 years, married Nancy Flint, his sister.

Mary, married Henry Noyes and Augusta, married Augustus Noyes, his brother. Another sister, Loan, was accidentally killed in 1874, when 8 years old. Winfield Cordwell was a war veteran. He belonged to Co. G, 1st Maine Regiment. The Cordwell farm was later, about 1880, occupied by Cyrus M. Buck. The house is now gone.

Higher up the hill was the farm house of Isaac Flint. He had a pretty daughter, Nancy, who married a son of the Cordwells. She married Winfield Cordwell, mentioned above. They had no children. Mary Flint, sister of Isaac, married Winthrop Stevens, later of Norway. In 1880, B. Waterhouse occupied the place.

Near the top of the hill was the farm house of John Garland, one of the early settlers. He reared a large family. He was connected with the Garland family of New Hampshire, to which my maternal grandmother, Betsy (Garland) Flint, also belonged. John Garland, one of his sons, married Adeline Whittle and settled in Bethel; another, Richard, married and settled in Greenwood; a daughter, Maria, married Benjamin Herriek, who afterwards occupied the same farm for a number of years. In 1853 it was occupied by Chas. Miliken. This farm house disappeared many years ago.

Another road ran directly south from the village over the same mountain passing near the old schoolhouse. There were several farms along this road. One at the first corner was early occupied by John Roberts, and at one time, by Benjamin Herriek, who married Maria Garland, a second cousin to my mother. They had a large family. One son was Dennis G., who later lived in the same house. Another son was Judge Addison E. Herriek, of Bethel, who was my namesake, as his mother told me. The Greenwood Herrieks are descended from Henry Herriek, one of the earliest and most prominent settlers of Salem, Mass., in the part that is now Beverly. He was one of the founders of the First Church of Salem. His known ancestry extends back many generations in England, and includes some ancestors who belonged to the nobility and bore a notable coat of arms. The genealogy of the Herriek family has been published in a handsome volume and includes the Norway and Greenwood members. Higher up the hill were the houses of S. Hayes and Calvin Cole.

The old schoolhouse was near the corner of the road towards West Paris. It had a high fireplace, adapted to wood four feet long. I remember very well the long and tedious hours I passed in that old schoolhouse, when a small boy, and many funny things that happened there.

About a mile farther was the farm of Richard Whittle. He had sons and daughters of unusual ability. I remember well those that were my schoolmates. Willard G. was the oldest. I believe Heman was about my age; he married my cousin, Edna Verrill, daughter of Daniel Verrill. Lydia Whittle taught

school at the village, and also on Patch Mountain. She was an excellent scholar, and my most esteemed teacher. When she taught at Patch Mountain my younger brother and I got permission to go to her school two miles away over high hills, all one summer instead of going to the village school. This was when I was about thirteen years old. I recalled lessons in chemistry to her. She married Cyrus M. Buck. Her sister, Adeline, was also a good scholar and was considered a handsome girl. She married John Garland of Bethel. Her younger sisters were Lorinda and Abigail, both bright girls. Abigail was afterwards employed on the staff of the Portland Transcript. I am told.

Going west from the village, about a quarter of a mile, was the farm of Simon Furlong. He was a regular old pioneer, a very strong man and fond of his New England run, as were many of the early settlers in those days. He was a brother of I. P. Furlong and of Mrs. Griffin Trull.

During a Methodist revival at Greenwood, in the winter, the converts were baptized by immersion through a hole cut in the thick ice of the lake. Simon Furlong was one of the converts. He was accused of "backsliding." It used to be said that the minister's hands had become so cold by the time that Furlong's time had come that he held him by the hair on the crown of the head, and he did not put the top of his head under the water. This left a place for Satan to retreat to, and so he was not entirely driven out. He came back, it is said. One of Mr. Furlong's sons, Eli, was a schoolmate of mine though four years older. He was a good scholar, and later attended the Norway Liberal Institute with my brother, Bryon D. Verrill, about 1850, before we moved to Norway. Eli had an older brother, Stephen, and sisters, Eliza and Sarah. The latter was about my age. I remember her as a lively and handsome school girl. She died young. The family removed to the west soon after my school days in the village. The farm was occupied about 1855, by B. Parker, I think. It was originally owned by Thomas W. Furlong.

The next farm house on that road was occupied by Griffin Trull. He had a blacksmith shop, as well as a farm and later moved to Norway Village. He had a large family of children, 12. They are recorded in the History of Norway, page 610. His place later became the town farm.

Nearly opposite on the south side of the road, there was a smaller house occupied at one time by Charles Brooks. It was rebuilt and enlarged by Greenfield Whitman. Charles Bennett occupied it for several years. Jonas W. Swan also lived there, about 1869 to 1871. One of his daughters, Linnie R., who married F. G. Bartlett, was born there in 1869. Mr. Swan moved to Norway Village in 1871, and his family is recorded in the History of Norway, page 605. About 1876 the place was occupied by G. Whitman. It is still occupied.

Farther west, across the Sanborn Brook, was the farm house of Francis Cordwell, which is still occupied. Francis Cordwell, a mason, as well as a farmer. He built most of the chimneys and plastered the walls and ceilings of a large part of the Greenwood houses. He was a brother of Enoch Cordwell, mentioned previously. He married Sarah Yates, daughter of Elder Wm. Yates. One of his sons, Gilman Cordwell, is now living in Norway Village, and is still active, with a good memory at the age of 81. He carried the mail between Norway and Greenwood for over twenty-six years. He married Emeline Bennett, daughter of William Bennett, of Greenwood. His daughter, Hannah, born 1858, married O. G. Whitman. His daughter, Ada, married first, Charles Whitman; second, Eugene Elwell, and had two children by each husband. She now lives in Norway Village. The other sons of Francis were Stephen, the eldest; Marshall; and Nelson.

After ascending the long and steep hill (steeper and rougher in those days than now), beyond the Sanborn brook where trout then abounded, the next farm house was that of Fredrick Coburn, at the intersection of the old road going to Bethel, even then mostly abandoned. A record of the Coburn children is given in the history of Norway, page 432. He died in the west. The house was occupied about 1880, by R. M. Whitman. It is still standing and occupied in 1914. On the opposite side of the road is the J. Davis farm house, built later. About 1880 it was occupied by H. Cummings. It is now standing but abandoned.

Descending the hill, northward, the road crosses the Sanborn Brook. Near this place was a saw mill, owned by Whitney & Richardson, in 1858. The rare mineral, Corundum, was found near this place by me in 1852.

In Thousands of Homes

early and certain relief is found for the ailments to which all are subject—ailments due to defective or irregular action of the stomach, liver, kidneys or bowels—in the most famous family remedy, the world has ever known.

BEECHAM'S PILLS

are justly famous because they have proved to be so reliable as correctives or preventives of the sufferings, dull feelings and danger due to indigestion or biliousness. If you will try them to cleanse your system, purify your blood, tone your stomach, stimulate your liver and regulate your bowels, you will know why so many rely on Beecham's Pills to

Insure Health and Happiness

Largest Sale of Any Medicine in the World. Sold everywhere. In boxes, 10c, 25c.

On the road next, south of the P. Coburn farm, and farther up the hill, was the farm house of Isaac Patch, who died Nov. 1849, aged 59 years. He had considerable property, it was said, but he was feared and hated by his neighbors. He was very profane and was said to be a very hard drinker. He certainly looked so, as I remember him. I think he was thought to have become insane, at least periodically, for the children of the neighborhood were cautioned never to go near him. His farm buildings are gone, but two large elms mark the site. His son George W. Patch, was bright and talented when young, and studied to enter college, but became dissipated and very blasphemous later in life. He kept a store at Greenwood City, at one time, about 1855 to 1860, and he had also taught school. He kept the Mt. Auburn Locks Mills. He was an officer in the local militia. During the civil war he was captain of a company in the 5th Maine Regiment. He married Sarah Mitchell, daughter of Stephen Mitchell, an excellent lady who had previously taught a school, at which I attended. She was a good teacher and worthy of a better husband. He had three sons, I think, some of whom are living. His oldest sister, Polly, married Erasmus Hilborn, a son of Seth B. Hilborn. He later kept an inn at Locks Mills, for a number of years. He was there in 1850 and 1851, I remember. He also had two other sisters, who died unmarried. 1870, this farm was occupied by S. Farr. The schoolhouse, then nearby, was not kept in the same place when I was a boy, and is now gone. It was south of the cemetery, on the same side of the road, in my boyhood.

On account of the

HUDSON Six-40 for 1915

NEW PRICE
\$1,550 F. O. B.
DETROIT

32 Surprises

The HUDSON Six-40 for 1915 brings out 32 surprises. And every one will be of interest to you.

There are 31 new features. And there is a new price—by far the lowest price that has ever been quoted on any type of quality car.

The Model Six

The HUDSON Six-40 came out last year to show Howard E. Coffin's ideal in a Six.

Mr. Coffin and his corps of 47 engineers had devoted three years to the model. By clever designing and proper materials they cut out 1,000 pounds of useless weight. By a new-type motor they saved about 80 per cent in operative cost under former cars of like capacity.

They created a car which was widely considered the handsomest car of the year. It was perfectly equipped. It had attractions which never before were found in any car at any price. That car—then priced at \$1,750—made such an appeal that the factory output was 3,000 cars oversold.

A Year's Refinements

Now these HUDSON engineers have spent another year on refinements. They have added comforts and conveniences. They have improved the car in 31 important ways.

Now the HUDSON factory—to meet the demand—has trebled its capacity. And the entire saving—\$200 per car—is taken from the price. The new Six-40—with all these new features—will next year sell at \$1,550, f. o. b. Detroit.

Some 1915 Features

Distinguished streamline body. Disappearing tonneau seats. 20-coat finish—invisible hinges. "One-Man" top, with quick-adjusting curtains attached. Extra tires carried ahead of front door. Gasoline tank in dash. Dimming searchlights. Simplified Delco starting, lighting and ignition system. Wiring in metal conduits. Lock on ignition and lights. Automatic spark advance. Better carburetion. Weight reduced to 2,890 lbs.

This type of car—light, handsome, economical—is the coming type of car. Nobody really doubts that. This price is all that such a car should cost. It marks a new era in quality cars. And it ends the time when Sixes were barred to men who pay modest prices.

We want you to see this car.

This new model arrives here soon.

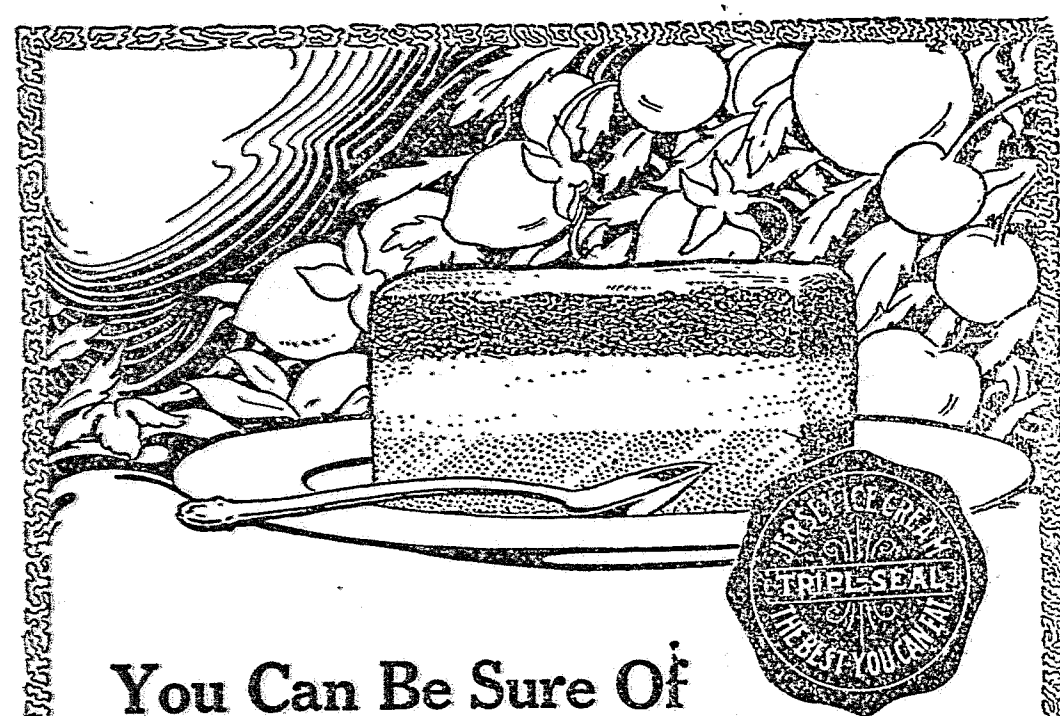

Don't buy until you see it.

Ellsworth Richardson and family have returned home after visiting friends here.
Wesley Riley and L. C. Button have been helping G. A. Miller with his hay.

Charles Colby's 62nd Birthday.

The Colby family had a pleasant gathering at the home of Charles Colby just outside the village of Paris Hill. The occasion was the 62nd birthday of Mr. Colby and the men guests presented him with a loving cup.
Sixteen families were represented in this gathering and fifty people were present.
Tables had been spread in the orchard and a stage built and program prepared for the afternoon, but a shower made it necessary to serve the banquet in the house. Two roast lambs, vegetables of all kinds, pies, cakes, and ice cream were spread in bountiful profusion and heartily enjoyed by all.
Pictures of the group were taken and also a picture representing four generations, viz., Mrs. Addie Colby, her daughter, Mrs. H. R. Porter, Mrs. Porter's daughter, Mrs. Vaughn Buchanan and her children. Charles Colby's five children were present, and 25 grandchildren.

The members of the Colby family present were: Mr. and Mrs. Currier Colby and family, Lawrence, Mass.; Scott Colby and family, Paris; Joshua Colby and family, South Paris; Mrs. Sidney Thayer and children, Paris; Mrs. Fred Milette and children, Norwood, Mass.; P. E. Kenniston and family, South Paris; Mr. and Mrs. James Hicks, Brunswick; Mr. and Mrs. Andrew Jenkins, Paris; Mrs. Vaughn Buchanan and Mrs. Addie Colby, Auburn; Mrs. Lizzie Varney and daughter Ruth, Brunswick; Mr. and Mrs. H. R. Porter, Lewiston; Olga Washburn, Roxbury, Mass.; Dr. Fred B. Colby and family, Rangeley; Mr. and Mrs. Branch Small, Norwood, Mass.

INFECTION AND INSECT BITES DANGEROUS.

Mosquitoes, flies and other insects which breed quickly in garbage pails, ponds of stagnant water, barns, musty places, etc., are carriers of disease. Every time they bite you, they inject poison into your system from which some dread disease may result. Get a bottle of Sloan's Liniment. It is antiseptic and a few drops will neutralize the infection caused by insect bites or rusted nails. Sloan's Liniment disinfects Cuts, Bruises and Sores. You cannot afford to be without it in your home. Money back if not satisfied. Only 25c at your Druggist.
Bucklen's Arnica Salve for Sores. 32-25

EAST STONEHAM.

Frank McAlister is ill with a stomach trouble. Mabel Barker is on the sick list.
Mr. and Mrs. Lorin McKeen were guests at Frank McAlister's last week.
Ingalls McAlister, wife and children of Bethel visited his sister, Mrs. S. W. Johnson, Thursday and Friday.
Charles Chaplin sold a cow to Ernest McAlister, Friday.
A much larger hay crop has been harvested by the farmers than was thought possible at the beginning of the season. Potatoes are looking fine in this vicinity. The apple crop looks promising in this part of the town.
F. H. Bartlett and C. L. Chaplin and wife went to Norway, Saturday.
Our little village is filled with summer guests. We need more summer houses, so we can accommodate twice as many as we do now.
